## SUMMER HEAT HARD ON BABY

No season of the year is so dangerous to the life of little ones as is the summer. The excessive heat throws the little stomach out of order so quickly that unless prompt aid is at hand the baby may be beyond all human help before the mother realizes he is ill. Summer is the season when diarrhoea, cholera infantum, dysentery and colic are most prevalent. Any one of these troubles may prove deadly if not promptly treated. During the summer the mother's best friend is Baby's Own Tablets. They regulate the bowels, sweeten the stomach and keep baby healthy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Mrs. Lizzie Saunders

Sec. Brunswick Rebekah Lodge No. 44 Woodstock N. B.

Dear Mrs. Saunders:—

I have much pleasure in acknowledging the receipt of cheque for £10 8 3 which you very kindly forwarded me on behalf of Brunswick Rebekah Lodge No. 44.

As I am now D. D. M. S. of the Canadian Contingents London, I am sending the money to the present officer commanding No. 1 Canadian General Hospital, my old Hospital, Lt. Col. C. F. Wyde. I am also sending him a copy of your letter so that he may understand fully the wishes of the Lodge. We shall have great pleasure in following out your views as far as possible and later I shall be glad to take the opportunity of letting you know exactly what has been done.

In the meantime please thank the members of the Order most heartily for this handsome gift and tell them that we shall have much pleasure in making useful disposal of the gift and as much as possible on the lines of what they suggest. Should it not be a bed, some other object akin to it will be chosen. Again thanking you and with kindest regards.

Yours sincerely

Murray MacLaren.
