Mr. W. S. Saunders,

A telegram was received here on Tuesday announcing the sudden death at Calgary, of Mr. W. S. Saunders. Mr. Saunders, with his family, left here some years ago for the West.

Presentation.

At the meeting of the O. E. S. on Tuesday evening Mrs. Elizabeth Belyea, who is a charter member of the lodge, was presented with an address and a beautiful Star Pin. The presentation was made by the worthy matron Mrs. J. A. Ludsay.

Supper was served at the close of the meeting. Mrs. Belyea is leaving in a short time for Philadelphia, where she will live with her daughter. She has many friends in town who will sincerely regret her departure.

Fishing is given first place in the April issue of Rod and Gun, the majority of the stories in this early spring number dealing with a subject which at this time of the year makes a special appeal to the out-of-doors man. Besides the stories in which fishing plays a prominent part, and other stories in which fishing does not occur, the department edited by Robert Page Lincoln under the heading "Fishing notes," contains much that is of practical value to the angler, among the articles being one on The Trail of the Angling Canoeist. Guns and Ammunition, edited by A. B. Geikie, is replete with information for the gun crank or enthusiast. "The Trap" contains the largest records of trap-shooting events and some reminiscences of a well known Toronto shooter, "Johnny Townson," while under the heading of the Kennebec there is much to interest dog lovers. The Airedale being the subject under discussion this month. Rod and Gun is published at Woodstock, Ontario by W. J. Taylor, Limited.

Use Women in Garrison

Paris, April 7.—Women are now being employed in garrisons in the place of soldiers of the auxiliary service. The experiment just begun at the headquarters of the 36th Infantry at Caen has proved so successful that the Minister of War has suggested that the commanders of other garrisons use the services of women wherever it is possible. Thus the drafts of the 1888 military class will be limited, which will permit professional men to continue to attend to their regular duties and will give employment to the widows; mothers and sisters of soldiers killed.

All the women used in the garrisons are to be classified under the direction of various chiefs of the service, and will be placed according to their qualifications.

German Vessels Reach Norway

London, April 10.—The Germans under the protection of new mine fields, have resumed trade with the west coast of Norway, according to a despatch from Alesund to the Times. The first German steamer since the war began arrived at that Norwegian port last week, where it was loaded with fish and oil. A second German steamer entered two days later with a cargo of coal and liquettes, returning with salt, fish and oil. Vessels arriving there, the despatch adds, report that they encountered a small fleet of 15 warships off Bergen proceeding northward.

German-Made Goods Sold in Canada

Toronto, April 12.—The anti German league, recently organized, has been busy gathering evidence on the continued sale in Canada of German-made goods. It is claimed that a number of houses are still handling quite a large quantity of German-made goods which are shipped into Canada from the States. The distinguishing labels are removed and the purchaser does not know that he is buying articles manufactured in German factories. The question is likely to be raised in parliament.

Carvell arrives home from Ottawa.

W. E. Stone, who was heard before the board, said that he was not here on a begging expedition but was giving the town something this time; his hobby always has been for music, but that hobby was now over. It seems impossible to get the proper kind of a band. He had been secretary treasurer for a long time and was willing to continue, but he could not get the band out at an engagement this week, and he told the members then that if the band would not do the work, the band should not take the money. Consequently he resigned from the band and now returned to the town \$50, feeling that the town was entitled to the money. Even if the old band went under, there was a young coming along that could probably fill the engagements.

Mayor Sutton thanked Mr. Stone and felt that he had done the right thing under the circumstances.

After a full discussion of the estimates, Coun. Smith moved and Coun. Stevens seconded a motion, that the following be the assessment for 1916, and a warrant issue for \$45,000.

Resume Profession

Having been requested by so many of my old patients to do some Dental Work for them I have decided for a short time, or until further notice, to open an office at my Residence, Chapel Street, opposite the Armoury. It was also my aim during my seventeen years' practice to give my patients the best of materials and the most modern appliances to operate with. I have equipped a new office and am now ready to do all kinds of Crown and Bridge Work, make Artificial Teeth, put in Fillings of all kinds or do any kind of Dental Work.

I am still using my old prescription in the painless extracting of teeth and also administer gas and ether.

It is a growing custom now for Dental Surgeons to have their office at their residence. This is a great advantage in many ways to patients as they are always able to find the doctor at any time of day or night. Another is being on the ground floor as many patients object to climbing a flight of stairs and still another—they have all the comforts of a modern home while waiting their turn for an operation.

I will as formerly give special attention to all diseases of the mouth, nose and throat. The specialist today is the man to consult as he has the experience in seeing and operating upon so many special cases.

Make appointments by phone 10-11, by mail or at my office.

I thank you for past favors and hope to see all my old patients back and many new ones.
