### Gives Warning To Germany

Washington April 19.—President Wilson has sent a note to Germany warning her that unless attacks on merchantmen carrying Americans in violation of international law are stopped diplomatic relations will be severed. The President revealed this fact to Senators Stone and Lodge and Representatives Flood and Cooper, ranking Democratic and Republican members of the Congressional Foreign Affairs Committee at a conference held at the White House early today. The President in his address at 1 p. m. will reveal fully what he has told Germany. The note and his address, the Congress leaders said, contains the plain statement that the alternative is the breaking of friendly relations.

The President explained that the note practically is an ultimatum, but does not contain a time limit. A demand is made, however, that Germany reply immediately.

Washington, April 19.—President Wilson goes to the Capitol today to personally lay his next step in the submarine crisis with Germany before both houses of Congress. What this step will be was known only to the President himself and members of the official family. It is known, however, that the administration considers that Germany has flagrantly and persistently violated her pledges to the United States by attacking without warning peaceful merchantmen carrying American citizens. Developments of the utmost gravity were expected to follow quickly after the President outlined his plans to Congress. An ultimatum to Germany or even the breaking of diplomatic relations between the two nations were regarded as probable. Arrangements had already been made for a joint assemblage of both houses in the hall of the House of Representatives, at one o'clock this afternoon, when the President was to advise Congress of his plans.

Berlin, via Amsterdam, April 19.—The Tageliche Rundschau publishes a report that President Wilson and Secretary of State Lansing will "present a final demand upon Germany to furnish proofs of the correct demeanor of the German submarine commanders. The paper states:

"This report makes one blush with rage and shame, and keenly desire that Berlin should categorically refuse to have any discussions on such a tone and such a footing with the Washington at torneys of the English and French governments."

The Deutsche Tageszeitung says: "The bluff of Washington and of the American press bears for everyone who knows the real conditions the stamp of unconscious humor."

The Koelnische Zeitung says: "The new wave of threats and vituperation proves it necessary that we declare to the Americans: 'Thus far and no farther.'"

#### Sad Story Of a Newfoundland Man

Sydney, N. S., April 18.—Wm. Cross, a Newfoundland naval reservist, while on a hundred mile walk from his home at Hermit's Cove to St. John's where he was to join H. M. S. Britain, was picked up dead near Green's Pond. Travelling across the bay he fell through the ice. He made a gallant fight for life, breaking a path over a half mile to the shore upon which he crawled and died from exposure.

### Logs Are Running By At Woodstock

Fredericton, April 18.—The St. John River Log Driving Company's log jam at Grand Falls broke late last night and to-day logs are running at Woodstock.

Mr. Walter Jackson, manager of the Log Driving Company, received word this morning that a considerable quantity of logs was running by Woodstock and that the jam had been practically eliminated at the Falls.

The work of hanging booms here has been progressing rapidly, but the company will be unable to have their booms swung in time to catch the logs that have been let loose by the jam breaking last night. It is possible that this work will be completed by to-morrow at noon and everything possible is being done to accomplish this task.

The first accident to any of the tugs engaged in this work occurred yesterday when the Eldred broke her rudder loose and had to be taken to St. John for repairs. She will be able to return here to-morrow, however, and continue this work. The river here is rising slowly.

### Dr. Manzer Will Resume Profession

Having been requested by so many of my old patients to do some Dental Work for them I have decided for a short time, or until further notice, to open an office at my Residence, Chapel Street, opposite the Armoury. It was also my aim during my seventeen years' practice to give my patients the best of materials and the most modern appliances to operate with. I have equipped a new office and am now ready to do all kinds of Crown and Bridge Work, make Artificial Teeth, put in Fillings of all kinds or do any kind of Dental Work.

I am still using my old prescription in the painless extracting of teeth and also administer gas and ether.

It is a growing custom now for Dental Surgeons to have their office at their residence. This is a great advantage in many ways to patients as they are always able to find the doctor at any time of day or night. Another is being on the ground floor as many patients object to climbing a flight of stairs and still another—they have all the comforts of a modern home while waiting their turn for an operation.

I will as formerly give special attention to all diseases of the mouth, nose and throat. The specialist today is the man to consult as he has the experience in seeing and operating upon so many special cases.

Make appointments by phone 10-11, by mail or at my office.

I thank you for past favors and hope to see all my old patients back and many new ones.

DR. MANZER, OFFICE, CHAPEL STREET, OPPOSITE THE ARMOURY
