food supplies in order that there would be sufficient food for the home population and for necessary exportation to the Allies to save them from losing the war through hunger, were thrown out by W. J. Hanna, federal food controller, today. He delivered an address before the Canadian Club and made his remarks against compulsion after referring to the necessity for eliminating waste in foodstuffs. He said if everybody would reduce his food consumption by a third the problem facing Canada would be solved.

Three Farewell Parties

Before their leaving Plaster Rock for their new home at Lower Mill stream, Kings' county, N. B., Rev. Mr. Young and wife were given three farewell banquets. The first one was at Maple View, when an address and presentation were given by Mrs. M. E. Flanders on behalf of the citizens of that place. The presentation was a handsome rocking chair and a puff. At Burnt Land Brook a large crowd gathered at the church Tuesday evening, July 24, when Mrs. D. A. Jenkins read an address and presented Mr. and Mrs. Young with a purse of money. At Plaster Rock a crowd met at the home of Norman Wright where an address and presentation were given by Theo. B. Marston on behalf of the citizens of Plaster Rock. Mrs. Young received a very costly cocoa set. Mr. and Mrs. Young replied to these addresses and hoped that they would have the prayers and good wishes of their many friends as they went to their new home. They left Plaster Rock Thursday morning, July 25th, by the G. T. P. Ry.

D. L. Hutchinson of the meteorological observatory, St. John, was in town on Wednesday on his annual trip of inspection going as far north as Edmundston. On this side of the province, there are stations at Edmundston, Gr. Falls, Fredericton, McAdam and Woodstock.

Officers of Potato Exchange

At the meeting of the Potato Growers' Exchange, Ltd, held at Woodstock on Monday and Tuesday of last week the following officers were appointed for the ensuing year.

President, Guy Porter, Andover. Secretary, Charles Gallagher, Bath. Solicitor, W. P. Jones, Woodstock.

The Potato Exchange was formed for the purpose of acting as selling agents for the shareholders and to handle the potatoes at so much per flat rate per car. It maintains offices in Montreal and Toronto and agents in smaller Ontario towns for the purpose of selling potatoes, adjusting any losses or claims for shortage in cars, etc.

Outside of the association the members act independently as

The Testing Time!

Russia Prospers

During the first eight months of Prohibition in Russia the Savings Banks reports show savings increased 5,000 per cent. (net).

WHEN the test of the world-conflagration called for every ounce of strength in every available man to stem the tide of destruction, one of John Barleycorn's greatest friends, Russia, was the first to abolish the Traffic because it could not meet the test. In good time, when her hour of test arrived, New Brunswick banished the great Drink curse let us hope forever!

After the war, in his turn, John Barleycorn is going to put New Brunswick to the test. Prohibition may again be voted upon after the war.

Every bit of lax enforcement and indifference is just so much ammunition for him to use against us. How does Prohibition meet the test?

Russia—

Some idea of the enormous effect of Prohibition is afforded by the wonderful example of Russia. In spite of the fact that millions of producers are in the army the savings of the people enormously increased. In 1912 and 1913 they were saving, per year, about \$20,000,000. In the first five months under Prohibition they saved \$60,000,000. In 1915 the banks took in \$265,000,000. For the first half of 1916, the Russian people saved \$300,000,000!

The Dakotas—

Town and city population in South Dakota under License increased 168 per cent. in 20 years. In the Prohibition state of North Dakota it increased 494 per cent.!

In "dry" North Dakota, for the year 1909, 2,789 men produced \$19,137,000 worth of manufactured goods. In the "wet" Dakota it required no less than 3,602—813 more men—to produce only \$17,870,000 worth of manufactured goods, or \$1,267,000 less!

In 1890 commitments to Insane Asylums in "dry" North Dakota were 40 persons per 100,000 more than South Dakota. After twenty years of Prohibition they were forty less! And the Prohibition State began the period with only about half the population of its neighbor!

South Dakota has since adopted Prohibition.

Help to Enforce Prohibition

Permanent Prohibition in New Brunswick demands strict enforcement between now and the day when Prohibition may again be voted upon after the war. The whole task of enforcement must not be left to the officers of the law alone. Everyone should help. Eternal vigilance is the watchword.

NEW BRUNSWICK BRANCH

DONALD FRASER, President, Plaster Rock, N.B.

REV. THOS. MARSHALL, Vice-President, Fredericton, N.B.

W. G. CLARK, Treasurer, Fredericton, N.B.

REV. H. C. ARCHER, Executive Secretary, Fredericton, N.B.

New Engine of Destruction

New York, July 13.—A special to the World from Pittsburgh says the Westinghouse interests here are seeking one thousand men who are willing to sign an agreement to enter a new plant for the manufacture of war munitions by a secret process and remain imprisoned for ten months, all communication with the outside world to be shut off.

Men who have been approached were told that the plant will manufacture a powerful implement of war, and the secret must be guarded until the government sees fit to make the details public. Only those workmen and officials who will be engaged in the production of the new weapon will know its character and the details of manufacture.

Recreation and entertainment of every possible sort will be furnished the isolated employes. Pay double that they now get is guaranteed, and bonuses will be paid for high production. Only picked men whose Americanism is unquestioned and whose skill in their respective vocations is of the highest will be employed.

Officials of the Westinghouse interests today refused to talk. An artisan of high standing, who was approached by the Westinghouse agents said he had received an intimation that the new plant would turn out, in large quantities, one of the late inventions of Thomas A. Edison.

Washington, July 13.—An official despatch today announced the sinking by submarine of the American barkentine

Advertisement for Wilson's Fly Pads. Every 10c Packet of WILSON'S FLY PADS WILL KILL MORE FLIES THAN 1 \$8.00 WORTH OF ANNY STICKY FLY CATCHER. Clean to handle. Sold by all Druggists, Grocers and General Stores.

Hildegard, of New Orleans, on July 10, and of the American schooner Mary W. Bowen, of Fall River, on June 8. All members of both crews were rescued and landed. The Hildegard was a vessel of 535 tons, and the schooner a five-master, was of 1,907 tons.

Hints of Federal Food Controller

Montreal, July 17.—Hints that compulsion and price fixing might be necessary to conserve Canada's

far as their own business is concerned, the association simply acting as agents.

The object of the association is not to make money, as has been claimed, but simply enough to maintain the different agencies to look after the business of the exchange, and to act in the interest of the producer and shipper.

Last fall when the association was charged with having a potato combine in New Brunswick, the members went to Ottawa and submitted all their books and dealings to the Minister of Agriculture, which went to show that the organization was a perfectly legal one.
