The ladies of the Weston Red Cross Society presented each of the boys with two pair of woollen socks. **Get Behind the Wheel
of a Ford and Drive**

TRY it just once! Ask your friend to let you "pilot" his car on an open stretch. You'll like it, and will be surprised how easily the Ford is handled and driven.

If you have never felt the thrill of driving your own car, there is something good in store for you. It is vastly different from just riding—being a passenger. And especially so if you drive a Ford.

Young boys, girls, women and even grandfathers—thousands of them—are driving Ford cars and enjoying it. A Ford stops and starts in traffic with exceptional ease and smoothness, while on country roads and hills its strength and power show to advantage.

Buy a Ford and you will want to be behind "the wheel" constantly.

Employees Safeguarded.

Ottawa, Oct. 31.—Amongst the penalties provided for infractions of the Military Service Act is a very necessary and useful instrument designed to guard employees from employers who make a reduction of wages or some such alteration in working conditions as a condition for applying for the exemption of a man or men in their employ. Any employer guilty of such conduct is liable to a fine of \$1,000 or imprisonment for six months.

The honorable course for employers to follow under the Act is to apply for exemption faithfully and loyally for the men whose work is essential to the success of their business and who cannot be replaced, or who have special qualifications not to be

duplicated, and not to make the application for any indirect or improper purpose, whatsoever. Exemption Tribunals will not be deceived, and the system will provide fairness for all, sooner or later. C-21.

She never complained or murmured through her sickness. Her end was peace.
