

### Emma Goldman, High Priestess of Anarchy

Born in Russia, about fifty years ago; educated in Germany. Speaks Russian, German, French and English; also familiar with Italian and Spanish. Came to America in 1886 with her parents, who settled in Rochester, N. Y. Worked as a factory girl in Rochester and New York city. Married to Jacob K. Astner, an alleged Socialist, but separation soon followed. Led strike of Shirtmaker Girls' Union in New York city, in 1888. Arrested and convicted on charge of inciting to riot in a speech at Union Sq., Aug. 31, 1893. Spent ten months in Blackwell's Island Penitentiary. Arrested on charge of having incited Leon Czolgoz to the assassination of President McKinley in 1901. Released for lack of evidence. Was associated with Johann Most, Alexander Berkman, Justice Schwab and other New York anarchists in publication of the Freiheit. Subsequently quarrelled with Most and publicly horsewhipped him. Reported married in May, 1906, to Berkman, upon his release after serving a term of fourteen years in the penitentiary for his attempt to assassinate Henry C. Frick, the steel millionaire, during the Home-

### Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

stead strike. Under an assumed name started a hair-dressing business in New York city in 1905. On the authority of Attorney-General Bonaparte, in March, 1908, it has been declared that no legal ground can be found for deporting Emma Goldman; nor can she be barred at American ports if she leaves the country and returns.

[In New York, on Monday, Emma Goldman and Alexander Berkman were found guilty of conspiracy to obstruct operations of the selective draft law. Judge Mayer imposed the maximum penalty of two years in the federal prison, and a fine of \$10,000 upon each of the prisoners.

### Air Invasion Of Germany

The official communication issued by the French war office on Saturday night thus referred to the air bombing expedition into Germany, mentioned elsewhere in the Globe.

"On the night of July 6 eighty-four machines took the air. Several of these raids had as their objectives towns situated very far in the interior of the enemy territory in reprisals for bombardments against our open towns.

"Eleven of our airplanes flew over Treves, on which they showered 2,650 kilos of shells. Several fires broke out—one of great violence in the central station. Six other machines bombarded Ludwigshafen, doing considerable damage. Among other buildings the important Badische aniline factory was devoured by flames.

"Another of our airplanes, piloted by Marechal des Logis Gillain, pushed as far as Essen and dropped projectiles on the buildings of the Krupp factory.

"Military installations in the environs of Coblenz, the Hinson station, the railroad west of Pfalzburg, and the Thionville station were likewise bombarded. Another series of operations over the enemy lines gave excellent results. A fire broke out in the station at Dunsur-Meuse, a munitions depot exploded at Bantheville, the railroad station at Machault and establishments at Cauroy were burned.

"In all, 30,455 kilos of projectiles were used. Two of our airplanes have not returned."

### Air Raid The Uppermost Topic

New York, July 10.—An Associated Press cable from London, this morning, says:

"Premier Lloyd George's speech at the secret session of the House of Commons, was issued too late for press comment, but other comments on the air raid, which continues the uppermost topic, indicate that the official report of the Premier's speech is likely to be a deep disappointment. Some newspapers forestall the Premier, saying that

if the explanation is to be that there is no airplane detector of London, because it is needed at the front, the obvious retort is that there ought to be enough for both.

The Daily News claims authoritative information that there are plenty of airplanes and plenty of pilots and fighters, but that they are not kept ready. If they had been prepared to rise immediately, as they are at the front, the invaders, the paper says would have been smothered in the proportion of three to one. It is declared that on the occasion of the recent raid at Harwich warning was given 90 minutes before the British machines rose. The Daily News claims that the organization is defective and ought to be remedied.

London, July 9.—F. G. Kellaway, of Bedford, Parliamentary Secretary of the Department of Munitions, speaking at Luton, said that despite the gunners' enormous expenditure of shells, the production was more than keeping pace. The total output at present was twenty times that of the first year of the war. This was eloquent justification of the dilution of labor. The Government's proposals were to allow the dilution of labor on private work in order to bring a proportion of skilled men now engaged on private work to war work in shipyards, agricultural implement work and aeroplane production. The interests of labor would be fully safeguarded in the scheme.

### Take Good Care Of The Colts

It's cheaper to raise colts than to buy horses. But it's costly if you lose the colts. Keep a bottle of Kendall's Spavin Cure handy. For thirty-five years has proved it the safe, reliable remedy for spavin, splint, curb, ring-bone, bony growths and lameness from many causes.

### Reported 100 Employees Killed

Amsterdam, July 10.—Les Nouvelles, of Maesricht, Holland reports that Dutch workmen, who were laid off at the Krupp works on account of the destruction of buildings in the recent French air raid, assert that a quarter of the Essen plant was destroyed.

The material damage is placed at millions of francs and it is said that 100 employees were killed and hundreds of others, including 45 French prisoners, wounded.

One and possibly two French airplanes dropped bombs on Essen last Friday. The official German report of the raid said only two bomb holes were found.

### Destroyed Two Enemy Seaplanes

London, July 10.—The Commodore at Lowestoft says an official statement, reports that yesterday, the British armed trawler Iceland destroyed two enemy seaplanes and brought four prisoners into port.
