PEABODYS OVERALLS

PUT THEM TO THE TEST SHOWN HERE

THEY WILL STAND IT—BECAUSE THEY ARE MADE TO WEAR

NOBODY BUYS OVERALLS TO PLAY TRICKS WITH THEM SUCH AS IS SHOWN IN THE PICTURE ABOVE, IN WHICH FOUR MEN EXERTED ALL THEIR STRENGTH IN THE EFFORT TO RIP A PAIR OF PEABODYS' OVERALLS.

BUT IF THEY WILL STAND THIS—THEY WONT RIP UNDER THE HARDEST KIND OF LEGITIMATE WEAR.

WE ARE THE AGENTS OF
PEABODYS'
GUARANTEED OVERALLS.

CENTREVILLE N. B.

Camp meeting at Robinson Mills closed Sunday, August 12. The speaker for that day was Mr. Foster, and his subject, the "Second Coming of Christ." There was a very large attendance, for it is said that there were at least five hundred automobiles gathered there, as well as many teams.

Having season is about over. The crop this year has been exceptionally good.

Last Friday afternoon, one of the neighbor children, on going into the home of Mr. Thistle, the jeweler, found Mrs. Thistle lying dead on the floor near the shop door. Up to that time she had appeared to be in perfect health. She leaves five boys, the oldest seventeen, the youngest, four years old.

Reports say that potatoes will be worth very little this fall.

Mrs. Hiram Clark, and her granddaughter, Miss Corey, of New Hampshire, who have been visiting relatives in Presque Isle, returned Sunday afternoon by auto.

Mr. Johnson, of Plaster Rock, who is visiting his daughter, Mrs. Grant, had the misfortune to fall down the cellar steps, backward, breaking his collar bone. Mr. Johnson is eighty-two years old.

Miss Dorothy Clark is visiting out of town for a few days.

Our minister, Mr. Johnson, spoke yesterday morning in connection with his series of sermons on the second coming of Christ. His subject last evening was "The King who made a fool of himself."

CHOLERA INFANTUM

Cholera Infantum is one of the fatal ailments of childhood. It is a trouble that comes on suddenly, especially during the summer months and unless prompt action is taken the little one may soon be beyond aid. Baby's Own Tablets are an ideal medicine in warding off this trouble. They regulate the bowels and sweeten the stomach and thus prevent all the dreaded stomach complaints. Concerning them Mrs. Fred Rose, South Bay, Ont., says: "I feel Baby's Own Tablets saved the life of our baby when she had cholera infantum and I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams Medicine Co., Brockville Ont.

Bailey-Lister

The home of Mr. and Mrs. J. L. Lister, Hillsboro, was the scene of a pretty and quiet wedding on Wednesday August 8, at 1 o'clock, when their only daughter, Harriet Mahel, was united in marriage to Arthur Gordon Bailey, of Woodstock, by Rev. G. W. Tilley, of the Hillsboro Methodist church. Only immediate friends and relatives were guests. The home decorations were of beautiful roses and ferns and other cut flowers and potted plants. Mrs. Arthur Fisher rendered the wedding march, and the bride who was unattended, entered the parlor looking very pretty in a beautiful dress of blue georgette with gold and blue trimmings. After the ceremony, luncheon was served on the lawn.

Mr. and Mrs. Bailey left amid many good wishes and showers of confetti by automobile for Moncton, from whence they took the train for a trip through Prince Edward Island, Nova Scotia and New Brunswick. On their return they will reside in Woodstock, where Mr. Bailey is a coming young merchant as associated in business with Bailey Bros., Boot and Shoe Company.

The bride's travelling suit was a pretty one of blue silk and hat of corresponding shade. The groom's gift to his bride consisted of a beautiful wrist watch and a check. Among the many beautiful wedding gifts might be mentioned a fine bedroom suite from the bride's parents, and the groom's parents' present of beautiful dining room furniture. From Woodstock friends the bride also received many gifts of cut glass, silver, linen, etc. She had been a valued member of the Woodstock Fisher Memorial School for a number of terms.

Out of town guests attending the wedding were Miss Kate Miner, from Amherst; Mrs. J. W. Lister, Moncton and Mrs. Arthur Fisher, Woodstock.

The bride is a former resident of this city and is a niece of Mr. Frank S. Lister of The Gleaser staff—Fredericton Gleaser.

Dow-Shea

A very pretty wedding took place at the home of Mr and Mrs Chas Titus, 81 South Park street, Bangor, Me, when Miss Ena Loresa Shea, niece of Mrs Titus, became the bride of Mr William Leslie Dow of McAdam. Rev B P Browne was the officiating clergyman. The bride was becomingly dressed in white voile and carried a shower bouquet of white carnations and maiden hair fern. After a wedding lunch, Mr and Mrs Dow left for St Stephen, Milltown and Woodstock, after which they will reside in McAdam, where the groom is employed by the C P R. Mrs Dow is a well known Bangor young lady and a prominent worker among the young people of Essex St Church and her many friends wish them every success and happiness. The bride received many pretty and useful presents.—Bangor paper.

The newly married couple have arrived in Woodstock and are the guests of the bride's mother, Mrs Margaret Shea, River street.

Wm. Browning Sen., Wm. Browning Jr., James Browning, Miss Bertha Browning, Mr. and Mrs. Hanford Browning, of River de Chute, Mr. and Mrs. Hefernon, Mrs. Sherwood, of Andover, Mr. and Mrs. Lane and three children, of Fort Fairfield and Wm. Browning of Mars Hill, motored to Woodstock on Sunday Aug. 5 and spent part of the day with Mrs. and Miss Stephenson Queen Street.

Letter Received by Mrs. A. F. Winslow From Her Son

July 5th., 1917

Dear Mother

Just a few lines to let you know that I am still getting along fine. I received a parcel containing maple honey and a box of candy from Clarence, and a cake it was tray Bon as the French say.

I had a good time while I was down the line am now back up again but have not been sent to my Batt. yet. My address will be different for awhile. I also received a letter from Hilton, it was some letter am always glad to get one from him they cheer me up so. Tell him I hear from Bill Lamb Often.

I saw Chas. Troy, Sutton, Moores, was glad to see the boys, Sutton gave me a piece of cake and tobacco. I have not seen Rankin they tell me he is back in England with bad feet. The boys told me he was brave and game while he was in the trenches. I was glad to hear them speak so well of him? Was ever and spent the day with Miles he is O. K.

Well it seems good to be getting my mail regular again I feel sure I will get the rest of my letters and parcels all right.

I am expecting my leave to England soon and tell Frank I will have a good souvenir that I will send him a German belt, or something for he and Ethel have been very good sending me tobacco and good things in the parcels, well the fellows here are chewing the rag so much I can hardly write. You should see the house I am living in, at least we are living in the cellar, as it is healthier down here, in the prettiest village at least it used to be but all the roofs are shot off now, and from the sound out side tonight the gardens are being plowed, for believe me Fritz is sure hostile.

Well I suppose Alice is home by now. Hope Clarence got the things I sent him, tell him not to part with them as everything I send has a story to it.

Must close now the boys are waiting for me to play whist. From your loving son.

Rao

The citizens of Woodstock and the County at large have just reason to be proud of the showing made on Matriculation by the graduating class of the County Grammar School; eleven successful candidates in advance of Third Division establishes a record for the school and much credit is due the efficient staff of teachers and energetic pupils.

There is a popular tendency to discount the work of a teacher if any discord exists between him and his school but often such friction is only the echo of progress for "Palma non sine pulvere" there are no trophies without dust. It is not too late to give Mr. George H. Marr, M. A. his due tribute of praise for the work achieved last year, a scholar of high order and with ability to impart that knowledge unassuming but with courage to carry out conviction; he not only did much for the school and in the meantime promoted his own scholarship. He won his Master's degree from his Alma Mater and a Fellowship from Toronto University, where he will study a line of subjects of his particular liking.

The following is a list of the Matriculants:

Winnifred M. McCann
Fred V. Holyoke
Muriel S. Smith
Helen L. Pringle
Irene H. King
Dorothy Dickins
Maggie A. Green
Mary E. Fewell
Howard G. Rogers
Margaret M. Peabody
Donald A. Lindsay

Hanford Browning and nephew Heber Lane, of River de Chute, motored to Woodstock on Sunday to get a nurse for his father William Browning Sen., who is quite ill.

BURN

LEE.—At Woodstock, on Sunday August 5, to Mr. and Mrs. Harry W. Lee, a daughter.

TOWN COUNCIL

PURE WATER VOTE MONDAY, AUG. 27.

Engineer Grimmer Gives the Approximate Cost of Filtration Plant at Council Meeting

MONDAY EVENING.

The council met at 8 p. m., Mayor Burt and all the councillors being present but Coun. Fisher.

Minutes of last meeting were read and approved.

Coun. Stevens—You have all heard with deep regret of the death yesterday of the wife of Coun. Fisher, and of the sad accident to-day, by which Chief Kelly lost his son by drowning. In respect to Coun. Fisher and the chief of police I would suggest that the Council adjourn till Friday evening.

Coun. Smith moved, Coun. Leighton seconding a motion that the pure water committee be given power to secure Mayor Mitchell and Dr. Kierstead of Fredericton, Prof. Meadows of Montreal and Engineer Grimmer of St. Andrews to address public meetings here in the interests of pure water. Carried.

Moved by Couns. Leighton and Smith that the town clerk be requested to ask for tenders for a filtration plant and for repairs at the pumping station, according to plans and specifications to be seen at the office of the town clerk. Carried.

Coun. Smith said that the approximate cost of a filtration plant would be \$40,000, and repairs at the pumping station \$25,000, making a total of \$65,000.

Adjourned till Friday evening.

FRIDAY EVENING.

Council met at 8 p. m. Present, Mayor Burt and all the councillors but Coun. Fisher.

Minutes of last meeting were read and approved.

Engineer Grimmer addressed the board. The plans as submitted did not carry any ornamentation and everything in the old plant that was suitable has been worked into the new plant. The proposed filtered plant could be got cheaper than at first anticipated, owing to a good rock foundation at the pumping station. It might be got for \$40,000 not greater than \$42,000. The interest on the money borrowed would be \$2000 a year. You had been running the plant with one attendant, but it would have been cheaper in the long run to have hired two attendants; a second man could be got for \$750, the filtration plant to pay one half of the cost and the water department the other half of the man's salary. The yearly cost of the plant including interest would be \$3375, which would mean only an extra cost of 75 cents a head on the population of the town, estimated at 4500.

The following is a summary of the total cost:—

Filter plant	\$ 40 000
Alterations to accommodate pumps	5 300
Boilers and pumps	16 600
Engineering and unforeseen expenses	4 900
Total	\$ 66 800

The amount determined in his report was 1500 gallons a minute for a reasonable fire period. The plant can be installed in 100 working days.

The controlling factors in the pure water system are:—

1. Bacteriologically pure.
2. Colorless and free from turbidity.
3. Odorless both hot and cold.
4. Low in total hardness, iron or other injurious substances.

From time to time the town has had analysis of its water supply. In addition the present bacterial count of the river was taken, and it was found to contain 2350 bacteria per cubic centimeter and further B. Coli was found to be present. This corroborated every previous analysis, and all analysis show a dangerous contamination and the pre-
