**HOUSEHOLD**  
**SANDWICH PASTE**  
 One pound seeded raisins, two  
 tablespoonfuls lemon juice, two  
 tablespoonfuls orange juice, one  
 teaspoonful salt. Wash and dry  
 the raisins. Put through the  
 fine cutter of the food chopper  
 add the fruit juices and salt and  
 mix well. Pack in jelly glasses.  
 This will keep nicely.

**TRANSPARENT MARMAL-  
 ADE**  
 Purchase four dozen sour or-  
 anges; grate the yellow rind of  
 one dozen. Cut the oranges in-  
 to halves, remove the seeds.  
 Measure the pulp, and to each  
 pint allow one pound of sugar.  
 Put the sugar and the orange  
 rind in the preserving kettle,  
 add the orange pulp, stir until  
 the sugar is dissolved, bring to  
 a boil, skim, then boil until the  
 mixture forms a jelly, which will  
 be perfectly clear. Try the mix-  
 ture by putting a little in a sau-  
 cer in a cold place.

**SALMON STEW**  
 Remove the bones from a small  
 can of salmon; mash the fish  
 with 1 tablespoon butter in a  
 kettle over a slow fire until well  
 mixed, but not brown. Have  
 one quart milk hot and seasoned  
 highly with salt, pepper and  
 celery salt and pour into the oth-  
 er ingredients just before serv-  
 ing. Serve with oystercakes.

**NOVELTY STEW.**  
 Allow one medium-sized car-  
 rot, one onion, two potatoes and  
 one dumpling for each person to  
 be served. Boil carrots, cut in  
 medium sized pieces, in water  
 about 15 minutes, then add on-  
 ions (whole) and potatoes cut in  
 medium-sized pieces, adding wa-  
 ter if necessary to keep vegetab-  
 les well covered. Season with  
 salt and boil together a few min-  
 utes; while boiling drop in pork  
 sausage dumplings, cover and  
 continue boiling 20 minutes.  
 Serve hot, placing dumplings in  
 center of platter, surrounded  
 with the vegetables and garnish-  
 ed with parsley.  
 To make dumplings for six,  
 take two level cups flour, three  
 rounding teaspoons baking pow-  
 der, one quarter teaspoon salt,  
 mix with enough cold water to  
 make a stiff dough. Divide  
 dough in six equal parts, roll  
 out each and fill with sausage  
 meat size of an egg. Moisten  
 edges of dough and fasten to-  
 gether, shaping into balls. Drop  
 in while water is boiling and con-  
 tinue boiling 20 minutes.

**TO GET THE MOST FROM A  
 BUNCH OF CELERY.**  
 Select a fresh, crisp bunch  
 with plenty of green leaves, not  
 necessarily well bleached.  
 Remove leaves and outside  
 stalks, laying aside the hearts  
 for salad or using them as they  
 are. Cut the coarser stalks into  
 inch pieces, using the centre  
 part of roots sliced thin. Pre-  
 pare the same quantity of car-  
 rots scraped and sliced thin.  
 Boil both celery and carrots to-  
 gether in salted water half an  
 hour. Serve with milk or white

sauce. Save the water in which  
 the celery and carrots have been  
 boiled, and place in it the celery  
 leaves, adding enough water to  
 cover. Let them simmer on a  
 slow fire an hour. Strain, us-  
 ing the liquor for cream soup,  
 to which may be added (minced)  
 what is left over of the celery  
 and carrots.

**Shortage of Swede  
 Turnip Seed**

Swede turnip growers are urged this  
 spring to endeavour to secure and trans-  
 plant a few sound roots to produce seed  
 for themselves and their neighbours.  
 Owing to the abnormal conditions now  
 prevailing there will likely be very little  
 swede seed for planting in the spring  
 of 1918 unless our Canadian swede tur-  
 nip growers make provision for their  
 own supplies by growing the seed them-  
 selves. Canadian supplies of swede  
 and most other field root and  
 garden seeds formerly came from Eur-  
 ope but this source is now practically  
 cut off. The prospects for home grown  
 seed have been reduced by the present  
 price of swede turnips for food purposes,  
 as it would now take nearly two hun-  
 dred dollars' worth of full grown swede  
 turnips to transplant an acre for seed  
 purposes. This factor has had the un-  
 fortunate effect of reducing the area in  
 the eastern provinces that would other-  
 wise have been planted for the produc-  
 tion of swede seeds.

**Thirty-One Killed  
 In To-day's Raid**

London, June 13.—The east end of London  
 was bombarded to-day by fifteen hostile air-  
 planes. A large number of British airplanes  
 pursued the Germans, who flew over Essex to  
 London. No reports of casualties have been  
 received thus far. The following official  
 statement was issued:

"Lord French (commander of the home de-  
 fences) reports that about fifteen hostile air-  
 planes were heard crossing the Essex coast  
 passing in the vicinity of the Nore (part of the  
 Thames) at about 11 a. m. They proceeded  
 in the direction of London, separating when  
 they had covered about half the distance.

"The east end of London has been attacked  
 and bombed, but no reports have yet been re-  
 ceived of casualties or damage done. Anti-  
 aircraft guns of the London defences have in  
 action. A large number of airplanes are still  
 up in pursuit."

London, June 13.—The German airplanes  
 appeared over London shortly before noon.  
 A great battle occurred in the air.

The invaders were attacked by anti-air-  
 craft guns, as well as by British aviators.  
 In the House of Commons, Chancellor  
 Bonar Law said 31 persons had been killed  
 and 67 injured in the raid over London, as far  
 as ascertained.

A bomb struck a school house, killing ten  
 children and injuring 50. One German air-  
 plane is reported to have been brought  
 down.

**German Troops  
 Sick of the War**

London, June 16.—The German troops  
 in the trenches are heartily sick of the  
 war, but believe that the military caste  
 must continue to rule the fatherland or  
 the empire will collapse. This, in  
 effect, represents the opinion of Major  
 Morant, a noted military critic, who  
 according to a Berlin despatch had just  
 returned from the front and expresses  
 his conclusions in the Deutsche Tages  
 Zeitung

"We can only get rid of the war he  
 writes, "if we learn from history the  
 true lessons of this war, that is, if we  
 develop the army which is the empire's  
 strength. This is only possible on the  
 tried foundations of our military found

ations. In the view of our most intelli-  
 gent leaders the great structure of our  
 army will be extended. The army may  
 be altered in spots, but structure must  
 have no weak joints.

Every German soldier will be pleased  
 at the end of this war, but he rejoices  
 at present that there is no enemy on  
 German soil, and he demands that we  
 must secure ourselves against such a  
 surprise attack as was made by our  
 enemies in 1914.

Major Morant indicates that exten-  
 sion or extinction are the alternatives  
 before Germany. While he pretends  
 that the soldiers are hopeful of exten-  
 sion, there is an undercurrent of anxi-  
 ety in his remonstrances against the  
 liberal demands. This undercurrent  
 ends to shed doubt upon his own assur-  
 ances.

Petrograd, June 16, via London.—  
 The newspapers report that Admiral  
 Madimoff, commander of the Black  
 Sea fleet, has left his post and will be  
 replaced by Rear-Admiral Verdevski.  
 General Yadevitch, commander-in-chief  
 in the Caucasus, has been replaced by  
 General Prjevalsky.

Two officers and two men of the  
 Austrian espionage bureau have been  
 arrested while visiting Russian lines  
 in the guise of parlementaires.

A penitentiary sentence of 11  
 months and 29 days for not regis-  
 tering under the Selective Draft

law was imposed by Federal Judge  
 Coatfield in Brooklyn on Herman  
 Lavine, school teacher and college  
 graduate. He pleaded guilty.  
 When arraigned he was given an-  
 other opportunity to register. "I  
 do not think it is right, and I re-  
 fuse to do so," he said.

**German Hads  
 To Yield Again**

Field Marshal Haig has another bite  
 into the Hindenburg line and has cap-  
 tured a portion of the famous German  
 position northwest of Bullecourt. The  
 British advance in this region is the  
 first determined effort made since the  
 end of the sanguinary fighting which  
 resulted in the capture of the town of  
 Bulle court by the British, and is in the  
 direction of Hendecourt-Cagnicourt.  
 The Germans resisted the British stub-  
 bornly, but finally yielded after suffer-  
 ing heavy casualties.

In Flanders the British have extend-  
 ed their guns astride the Ypres-Comines  
 Canal in the direction of Comines and in  
 the region of Messines, toward Warne  
 Warneton, on the Franco-Belgian bor-  
 der. One hundred and fifty prisoners  
 and a number of machine guns were  
 taken.
