When A Ship Gives Battle

With decks clear of all unnecessary impedimenta she sweeps into the fray

A ship clearing for action proceeds to rid decks of all unnecessary impedimenta. Everything that does not contribute to her efficiency as a fighting machine goes below or by the board, and she sweeps into the fray with but one object, and that to acquire herself valiantly.

Something of the same sort takes place when nations are concerned, only the process is necessarily slower and less drastic. It is one thing for the company of a ship, clearing for action, to throw a piano overboard. It is quite another thing for a nation clearing for action, to throw a non-productive member of society overboard. In the latter case the energies of the non-producer must be diverted to productive pursuits and all this, of course, takes time.

But Canada is rapidly clearing for the final action of the war. One of the most important steps in the process is the registration of every person, male and female, resident in Canada. For this purpose Saturday, 22nd June, has been set aside by the Government and it is the duty of everyone to immediately inform himself as to what will be required of him on that day.

Fishing and Canoeing in Algonquin Park. The Record of a Cruise on the Kawartha Lakes. Bear Hunting on Peace River. On the Trail of Ogarse, A Day on the Bras D'Or Lakes are some of the contents of the June issue of Rod and Gun now on the newsstands. The Guns and Ammunition department this month is of special interest containing as it does a carefully written and practical article by one who has been "over there" on Sharpshooting in the Trenches. Every prospective soldier should read this article for it tells the soldier how to shoot to kill and this is what it is needed if we are to win this war. There are other articles in this section worthy of note and the Fishing

Notes section is up to its usual standard. Rod and Gun, the magazine of outdoor life in Canada, is published by W. J. Taylor, Limited at Woodstock, Ont.
