PUBLIC NOTICE
Military Service Act, 1917.

**Men 19 and 20 Years of Age.
Harvest Leave.**

**Leave of Absence on Ground of Extreme Hardship.
Procedure to obtain Leave of Absence.**

Men Nineteen and Twenty Years of Age.

It has come to the attention of the Government that there is a widespread impression that young men of nineteen years, and those who became twenty since October 13, 1917, as well as those who may become nineteen from time to time and who have been or will be called upon to register under the Military Service Act, are to be immediately called to the colours.

This impression is quite incorrect. No date has yet been fixed for calling upon such men to so report for duty, nor has the question been brought before the Cabinet for decision. In view of the need of labour on the farms, it is most unlikely that consideration will be given to the matter until after the harvest is over, although of course the Government's action must be determined primarily by the military situation.

There is no further obligation incumbent upon young men of the ages above mentioned who have registered or who do so hereafter, until they receive notice from the Registrars.

Harvest Leave.

Some enquiries have been received as to the possibility of granting harvest leave to such troops as may be in the country at that time. No definite assurance can be given on this point as advantage must be taken of ships as they become available. On the other hand, harvest leave will be given if at all possible.

Leave of Absence on Grounds of Extreme Hardship.

It is desired that the Regulations respecting leave of absence in cases of hardship should be widely known and fully understood. Such leave will be granted in two cases:— (a) where extreme hardship arises by reason of the fact that the man concerned is either the only son capable of earning a livelihood, of a father killed or disabled on service or presently in service overseas, or in training for such service, or under treatment after returning from overseas; or the only remaining of two or more brothers capable of earning a livelihood (the other brother or brothers having been killed or disabled on service, or being presently in service overseas, or in training for overseas or under treatment after his or their return from overseas); brothers married before 4th August, 1914, living in separate establishments and having a child or children not to be counted, in determining the fact that the man is the "only" remaining son or brother; (b) where extreme hardship arises by reason of exceptional circumstances such as the fact that the man concerned is the sole support of a widowed mother, an invalid father or other helpless dependents.

It is to be noted that in all these cases the governing factor is not hardship, loss or suffering to the individual concerned, but to others, that is, members of his family or those depending upon him.

Procedure to obtain leave of absence.

A simple system for dealing with these cases has been adopted. Forms of application have been supplied to every Depot Battalion and an officer of each battalion has been detailed whose duty it is to give them immediate attention. The man concerned should on reporting to his unit state that he desires to apply for leave of absence on one or more of the grounds mentioned and his application form will then be filled out and forwarded to Militia Headquarters, Ottawa. In the meantime, if the case appears meritorious, the man will be given provisional leave of absence for thirty days so that he may return home and continue his civil occupation while his case is being finally disposed of.

**A Good Appetite
A Great Blessing**

The Occasional Use of a Tonic
Will Ensure a Good Appet-
ite and Good Health

Loss of appetite during the summer months is a common trouble, and indicates that the digestive system is out of order. Lacking a healthy appetite many people—especially women—go too long without food, or eat sparingly because food seems to distress them, and it is no wonder they complain of being constantly tired and unable to stand the hot weather. All this simply means that the digestive system is not doing its proper work and that the nutriment that should come from the food is not being distributed to the various organs of the body. In other words the blood is growing thin and watery. In such cases what is needed is a summer tonic, and among all medicines there is no tonic can equal Dr. Williams' Pink Pills. Take a short treatment with these pills and notice how promptly your appetite returns and your power to digest food improves. Your food will then do you good, your strength will return and you will no longer complain that the hot weather tires you out. Mrs. M. Kelly, Winsor, Ont., says: "I suffered from indigestion for several years, and although I was constantly taking doctor's prescriptions they did not cure me, and the result was that I was greatly run down, and always feeling poorly. Finally I was advised to try Dr. Williams' Pink Pills, and as I soon found they were helping me I continued their use until I was fully cured, and am now able to properly digest any food I take. As a tonic and blood-builder I know of no medicine to equal Dr. Williams' Pink Pills, and I recommend them to all in need of a medicine."

The best time to begin taking Dr. Williams' Pink Pills is the moment you see the least bit out of sorts. The sooner you do so the sooner you will regain your old time energy. You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.
