Naval Experts Lose Hope in the U-Boats

London, July 25.—While the German politicians are still vaporing about the success of the submarine campaign, some of the German naval critics who know the facts strike a very different note.

Captain Persius, the most competent of them all, is extremely despondent and humble. He no longer talks of victory. The best he can hope for is that the U-boats may contribute to wards such a peace "as will insure the existence of the German empire."

He makes this confession: "We must admit that the fantastic hopes of many people have been disappointed. No earnest student can ignore the fact that it is foolish to threaten England to rob her of the mastery of the seas and condemn her to starvation by simply applying U boat warfare against her. We must tell the German people the truth, as only the truth will make them confident."

At The End Of Their Tether

London, July 31.—Information reaching Stockholm, says the correspondent of the Times, shows that the Bolshevik regime has come to the end of its tether and that the Russian masses—workmen and peasants—are about to rise in arms against Bolshevik tyranny.

Official representatives of the Social Revolutionary and Social Democratic parties in Russia have arrived in Stockholm, says the correspondent, and have

issued a remarkable appeal to the Socialists of Europe. They call upon the Socialists to form an international commission, representing all Socialist parties, to visit and ascertain by direct investigation whether the Russian Socialists are not right in declaring that the Bolsheviks have brought widespread evils on Russia, destroyed industry, caused universal starvation, despotically oppressed the people and are now concerned only in retaining power at all costs.

Amsterdam, July 31.—A Moscow telegram to a Berlin paper says that the entire region from Tomsk in West Siberia, to Udinsk, on the Uda, including Krasnoyarsk capital of the government of Yeniseisk and Irkutsk, are under the control of General Alexieff, formerly commander-in-chief of the Russian armies. Gen. Horvath, the anti Bolshevik leader, is east of Irkutsk, and control the region from Trans-Balkala to Vladivostok. Gen. Horvath and Gen. Alexieff are co-operating in military matters.

London, July 31.—Ukraine and Rumania have reached an agreement by which the former abandons its claim to the Province of Bessarabia in favor of Rumania, receiving in return commercial concessions, according to advices from Copenhagen which quote a despatch from Berlin.

Paris, Aug. 1. (Havas Agency)—The murder of Field Marshal von Eichhorn, according to the comment in the Paris newspapers, demonstrates that in spite of their legendary pacific, the Russian people cannot endure the German yoke. This crime, the papers say, coming after the assassination of Count von Mirbach, the German ambassador to Russia, shows that the return to dictatorial methods of government in Russia was bound to place bombs in the hands of those men who for many years knew no other argument of opposition. The news papers insist that Germany is reaping the harvest she sowed.

British Again Strike At Albert

FRENCH HEADQUARTERS, July 24.—(Via Reuter's Ottawa Agency).—The British resumed operations this morning and made further advances in the woods around Vigniv. A considerable pocket of thickly wooded ground was thus taken from the enemy, the possession of which is of considerable local importance. Meanwhile the French continue to press with unabated vigor on the western side of the German salient.

London, July 25.—On the western front of the Soissons-Rheims salient the Allied forces have advanced to an average depth of three miles on a twelve mile front during the past two days. There were no new developments this morning in the battle area, according to advices from the field of the fight but received in London up to noon. The situation was considered quite satisfactory for the Allies.

The reports show that the German high command has thus far engaged 64 divisions in the battle, representative of groups of the German armies from Flanders to Alsace. These 64 divisions are nearly a third of the available German army.

The conclusion is drawn that the enemy is being hard put to it for re-

serves, although Crown Prince Ruprecht of Bavaria, on the northern front, still has plenty of reserve divisions.

Safe arrival in Palestine of the first two contingents of the American Jewish legion is announced. Recruited last spring, the men have been trained in Canada and England and will join the Jewish regiment enroled in London and already on the firing line with the British forces near Jaffa.

The inhabitants of Liege, Belgium, held an enthusiastic public demonstration over the success of the Entente offensive on the Meuse salient during which the Marcellians were sung. Because of this the German governor had ordered the curfew hung at 7 o'clock in the evening for several weeks, and the city also had been fired.

Can We Chain the Fire Fiend Is Growing Like An Avalanche

There are some very interesting and instructive diagrams in a bulletin on forest fires just issued by the Forestry Branch of the Department of the Interior. These diagrams show that throughout Canada, whenever the rain fall becomes unusually light, the number of fires increases. Generally speaking, too, the higher the temperature the greater the danger of fire. The bulletin is entitled "Forest Fires in Canada 1914-16," and the extent of the losses to the nation from this cause makes the publication of this particular value. The statement of these losses will aid in arousing Canadians to the need of stopping forest fires and details of statistics will show that forest fires can be stopped, just as surely as losses are kept down by a good fire brigade in a city. With the exception of lightning, all forest fires are started by men, and if men were careful there would be no fires. The success of systematic fire protection measures is shown and the whole bulletin gives much valuable information on this important subject. Copies may be had free on application to the Director of Forestry, Ottawa.

Amsterdam, Aug. 1. (Bulletin)—The town of Yekaterinburg, in the Province of Perm, near the Siberian border, has been taken by the Czechoslovakia, according to the newspaper Izvestia, at Moscow.

With this new development of the Czechoslovak movement the Bolshevik press is raising cries of alarm. The Pravda, for instance, declares the Czechoslovak danger is growing like an avalanche and that the counter-revolutionary movement is extending.

Paris, Aug. 1.—Discussing the necessity for an effective interference in Russia by the Allies, General Falls says:

"I consider the gravest and most pressing danger that the Russian anarchy now presents is not so much in the revictualing of the Central Empires, which, as the Germans acknowledge themselves is most precarious, but to consist more especially in the levies the German government could make with the complicity of the Bolshevik, by re-
