### A GOOD CLOTHES-TREE FROM OLD MATERIAL

Bonething That a Clever boy Can Make With the Aid of Very Few Tools

Here's an ornamental article for b ys to try a hand al. It isn't as easy as it looks thoogh it's simple enough for a beginner in the use of cools to maka successfully.

It will be found useful in the halllway or in sleeping apartments. You probably can find an old wooden bed steas an the attic which will provide unoa: material when torn apart to to alvey for this clothes-tree. If you a der from the mill you can have the a right post cet tapering to just sait Dour geeda

You will notice that it is three inthes square at the base and only 2 Inches at the top. Fig. 2 is the base of the post. It fits snugly down on the cross. Use the pieces that form this cross or base proper to get the tight size for your mortises.

「「「「「「「「」」」

Mark the lines carefully and saw plowly, turning the piece over and sawing from the other side after every senth stroke. When you have cut deeply enough bore two holes with a three-quarter bit in the pieces which are to come out and saw from the

## CARE OF YOUNG POULTRY

Crushed oyster shell is the best material for shell making. Ducy aggs should be marketed frequently, as they depreciate in quality more rapidly than hens eggs, especially during hot weather.

A promising bunch of growing chicks can be spoiled by one night's sweating. Allowing 100 or more to crowd together in a small coop is aure to be the rutnation of some of them. If you would raise the finest wowls, do not allow more than 59 Sungsters together at night.

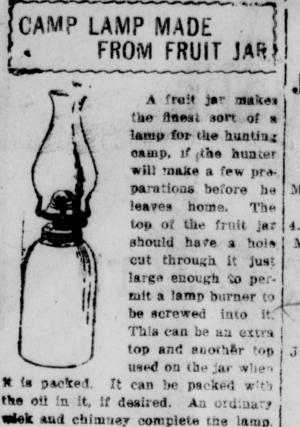

The feeding of milk to young mieks as a most favorable influence on the growth and on lessening the mortal-It tends to prevent mortality from all causes, and if fed soon onough and for a sufficiently long period greatly reduces the death rate caused bacillary white diarrhea.

When the young turkeys are large and strong enough to jump over the sides of the pen, let them run the the pen, gathering them in when a rainstorm threatens. As they are very susceptible to dampness, it is best not to let them out in the moraing until the dew is off the grass.

# SELECTING SEED CORN -

ours Good Crop, solar Good Seed

If a good crop of corn is expected good corn must be planted. The crop | onthusiastic and cause much backs depends so largely upon the seed that | and general soreness. iora to plant shythin but the best. Those who save their pwn seed are urged to carefully select it from the field crop and to give it the best of care. Those who have to buy should purchase only carefully Finish trimming your mortizes with selected seed. The Virginia Department of Agriculture conducted tests in connection with field selection and crib selection and found that ears selected from good yielding stalks in the field (field selection), produces 16 bushels more per acre, or 20 per cent. more than good ears of the same Pariety selected from the orth. Selection is the field enables one to see under what conditions the car was produced and to note the character of | been devised that is made of t the stalk and leaves of the parent plant, earliness of maturity, size, weight and strength. Where husking a done while the crop is standing a box can be attached to the back of the wagon and the best ears from the most suitable stalks can be plucked and placed to this box. If, however, the corn is to be out and shocked before husking, enough for seed the other smaller notches at each can be quickly gathered just previous to cutting by going into the best por-tion of the field and pulling the best sars from the desirable stalks. This should be carefully handled and thor-More than enough should be belected as callined above and the poorest of the discarded -T.C.N. In Conservation.

#### MAKING A PORTAGE

the Weight of a Canos

It has been said that the portages ture more people of the woods fever then anything else to be found in the wild lake country. The bardens one

must carry at the portages are cer-

#### BEE-KEEPING ON COAST

Production of Honey "screasing Rapidly in British Commbia

Although honey production as recognized British Columbia industry he in its infancy, splendid advance 1 being made, and the intelligent obser ver, looking forward, can see the Province in the not-far-distant future one of the greatest honey bee district on the American continent.

The development in production in the last few years has been remark able. In 1910 the yield was so small ps to be considered negligible-the product of perhaps a dozen or so small apiaries. By 1913 it had grown to fity tons. In 1914 the production was no liss then one bundred and fifty tons devernment inspectors and other tudents of bee-keeping pronounce th consibilities of the industry to LA magnificent, the grounds for prophec; being the success of presently estat. lisked apiaries; the magnitude of honey sources, notably the fire-weed so widespread and prolific in blo m and the wide fields of white clove alfalfa; and the favor British a lumbia honey enjoys on account o' #3 fine quality and distinctive : avor. It is conservatively es maned that

there are now twelve hundren tee · pers in British Columbia- provis m the Interior and 120 on Vancouver sland

The carrying of the canoe over portages has always been a probl Some of the canoes are so large it is impossible for one man to u age them. This device would not for them. But for the smaller lighter boats a much easier met. of portage has been invented than old custom of raising the canoe o the head and walking with it in uncomfortable manner, with the an bearing much of the weight.

A cance rest for the shoulders pieces of stout board and lets the tire weight fall on the shoulders w put straining the canoe or the who is carrying it. The four bi of board are fashioned into a fra which is provided with padded note for the shoulders, on one side and into which fall the battens of canos.

### HAPPY NOBLEWOMAN

A London woman writes: "I very busy, but very happy," La Sydenham told me the other when I congratulated her on her wo with t . Women's League of Service Lady Sydenham, who is baby-love in-chief of the League, is pever happy as when doing good work. Du ing 1915 she and her fellow worke have served 45,737 dinners to mothers at the League's headquarte. in one of the poorer districts of Lo. don, and inaugurated most adracti playrooms for their bables. Her lad ship has organized concerts, and be ged, borrow a and moved furnity from here incends to aid her in h plendid work. Lady Sydenham a is to teach the young mother how to care for their bables. Med cal women and trained nurses at constantly in attendance to give a rice on how to care for the babic and practical lessons on how plothe them

#### Chancellor Economizes

Having asked people to give m their motor cars as far as possible in order that petrol may be saved Mr. McKenna set the example by giving up the use of his own car s far as he personally is concerned This is not, of course, to say that he is resolved never again to use motor during the war. Circup rance: are conceivable in which that sight be very bad economy for the mation I it it means that in and about West rins r. from his house in Great Sunith Street to his office an . th House, he will in his ordina. / life walk instead of ride.
