### St. Paul's Church Meeting

The annual meeting of St. Paul's Presbyterian church was held on the evening of Wednesday, January 16th, and was well attended. The minister, Rev. Frank Baird, occupied the chair, and D. A. McKendrick acted as secretary. The minister's report showed the number of baptisms for the year to have been 19; of marriages 21; of deaths 3; and of new members 13, making the communion roll of the church 149. The number of families was reported at 35, and of individuals apart from these, at 31. The treasurer's report showed an increase for missions, and a credit balance on current account of \$98. The Sabbath school showed a balance at credit of \$60, and the Ladies' Aid a surplus of \$127.00.

It was resolved to adopt the General Assembly's plan of an every member visitation during 1918, the plan to be under the direction of the Board of Trustees. All departments of the Church had a good year. The jubilee exercises yielded a surplus of \$100, which was handed to the Trustees. Both the membership and income of the congregation reached the highest point in the history of the church. New Sunday school facilities are urgently needed, and it is hoped that the revenue, under the new plan, will make these possible in the near future.

A unanimous vote of thanks was tendered to Mr. W. M. McCunn for his excellent financial report, and this, with summaries of all reports, including subscription lists, was ordered printed. The following were elected trustees: J.

T. Montgomery, W. S. Sutton, J. R. Brown, W. M. McCunn, D. A. McKendrick, W. R. Jones, John Sproul.

### WINTER WEATHER HARD ON LITTLE ONES

Our Canadian winters are extremely hard on the health of little ones. The weather is often so severe that the mother cannot take the little one out for an airing. The consequence is that baby is confined to overheated, badly ventilated rooms; takes colds and becomes cross and peevish. Baby's Own Tablets should be given to keep the little one healthy. They regulate the stomach and bowels and prevent or cure colds. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Army Officer Of Hull

NEW YORK, Jan. 24.—The atrocities, "horrible and consistently official," which Canadian soldiers will soon see in the hands of Germany's army, were vividly described in an address by Maj. G. A. G. Murphy, M. P. Murphy, in charge of the American Red Cross work in France, who returned to this country Sunday. Maj. Murphy resigned from the Red Cross to join the staff of Gen. Pershing.

"I cannot describe the horrible things that Germany has done to women and children and the poor, old suffering people in countries, where she has set her dreadful foot." Major Murphy said. "British officers told of scores of wounded English soldiers piled in heaps and then bombarded with hand grenades. It will be but a short time before our boys are going to suffer those same things. You have got to build and build and sacrifice, no matter what it costs to beat that beast."

Building up the spirit of the people behind the lines in Europe is the great work of the Red Cross, the speaker declared. Contributors to the Red Cross in this country have thus become one of the largest factors in the war he said.

"Up to this day, Germany is victorious in this war," Major Murphy continued, "any peace that is made today on the basis of today's conditions would be practically a complete victory for Germany and for the German army. Germany has lost nothing in this war of blood. She has fought so far on the territory of others. She has drawn from the territory of others vast supplies of materials and vast sums of money. She has had between 40,000,000 and 50,000,000 people working for her for practically no wage—really as slaves. She has established her cursed hold on Austria, on Turkey and on Bulgaria, and she has at her feet murdered Serbia and unfortunate Roumania.

"If the war ended to day with France ruined in the north, Belgium wrecked, with Great Britain fearfully damaged, with Russia crumbled and disorganized and an absolute prey to the devilish machinations and ingenuity of Germany, the world would not have a chance to live except as Germany said that the world should live. In time she would cross the ocean and throw her great military and naval power against us. If we can't beat her now while fighting with our allies, we can never expect to beat her single handed.

"An English woman told me that when there was a threat of a German invasion the women carried poison about them to save themselves from what they would face if German troops landed."
