From the Colborne Express.

There are a few if any people in Murray township, Northumberland county, to whom the name of Chase, is not familiar. Mr. Jacob Chase, who has followed the occupation of farmer and fisherman and fishdealer, is especially well known. He has been a great sufferer from rheumatism, as all his neighbors know, but has fortunately succeeded in getting rid of the disease. To a reporter he gave the following particulars. I had been a sufferer from rheumatism for upwards of twenty years, at times being confined to the house. At one time I was laid up for sixteen weeks, and during a portion of that time was confined to my bed, and perfectly helpless. I had the benefit of excellent medical treatment, but it was of no avail. I believe, too, that I have tried every medicine advertised for the cure of rheumatism, and I am sure I expended at least \$200.00 and got nothing more at any time than the merest temporary relief. At last I was induced to give Dr. Williams' Pink Pills a trial, and from that time I date my good fortune in getting rid of the disease. I continued using them for several months and daily found that the trouble that had made my life miserable for so many years was disappearing, and at last all traces of pain had left me and I was cured. I say cured for I have not since had a recurrence of the trouble.

As proving the diversity of troubles for which Dr. Williams' Pink Pills are a cure it may also be mentioned that they restored Mrs. Frank Chase, a daughter-in-law of the gentleman above referred to, to health and strength after all other means had apparently failed. Mrs. Chase says:—"I can scarcely tell what my trouble was, for even doctors could not agree as to the nature of it. One said it was consumption of the stomach, while another was equally emphatic in declaring that it was liver trouble. One thing I do know, and that is for years I was a sick woman. I know that I was afflicted with neuralgia, my blood was poor, and I was subject to depressing headaches. My appetite was not good at any time, and the least exertion left me weak and despondent. A lady friend who had been benefitted by the use of Dr. Williams' Pink Pills advised me to try them, and as they had also cured my father-in-law, I determined to do so, and I have much cause for rejoicing that I did, for you can easily see that they have made a well woman of me. I took the pills steadily for a couple of months, and at the end of that time was enjoying the blessing of good health. It gives me much pleasure to be able to bear public testimony to the value of this wonderful medicine."

Dr. Williams' Pink Pills cured by going to the root of the disease. They renew and build up the blood, and strengthen the nerves, thus driving disease from the system. Avoid imitations by insisting that every box you purchase is enclosed in a wrapping bearing the full trade mark, Dr. Williams' Pink Pills for Pale People.
