

A P. E. ISLAND J. P.

Interviewed by the Patriot's
Special Correspondent.

Overwork Brought on Neuralgia and Shattered Health Generally—Passed Many Sleepless Nights.

From the Charlottetown Patriot.

The Patriot's special correspondent "Mac" being in the eastern section of the island on business, heard many complimentary remarks concerning Dr. Williams' Pink Pills, which appear to be the favourite medicine in all parts of Canada. Among those who are very emphatic in the praise of this medicine is Neil McPhee, J. P., of Glencorrodale, and our correspondent determined to call upon him and ascertain from his own lips his views in the matter. Mr. McPhee was found at home, and as he is a very entertaining and intelligent gentleman, our correspondent was soon "at home" too. When questioned about the benefits he was reported to have received from the use of Dr. Williams' Pink Pills. Mr. McPhee said:— "About four years ago I got run down from overwork on the farm. As there is considerable timber land on my property, I thought I could go into making timber in addition to my farm work. The task proved too heavy for my strength, and I soon began to break down. I contracted a severe cold, neuralgia followed, and I found myself in shattered health generally. I felt very much distressed and discouraged and spent many sleepless nights. I tried several very highly recommended medicines, but received no permanent benefit from any of them. As Dr. Williams' Pink Pills were so highly recommended through the press, I thought I would give them a fair trial. After using a few boxes I found they were having the desired effect and I began to find my wonted health and strength gradually returning. I kept on using the pills until I had regained my former vigor and had gained considerable in flesh as well. Now I consider myself a healthier man and feel as well as ever I did in my life. I can conscientiously recommend Dr. Williams' Pink Pills to any person suffering as I was. I have the utmost confidence in their curing properties."

Rheumatism, sciatica, neuralgia, partial paralysis, locomotor ataxia, nervous headache, nervous prostration, and diseases depending upon humors in the blood, such as scrofula, chronic erysipelas, etc., all disappear before a fair treatment with Dr. Williams' Pink Pills. They give a healthy glow to pale and sallow complexions. Sold by all dealers and post paid at 50c. a box or six boxes for \$2.50 by addressing the Dr. Williams' Medicine Co., Brockville, Ont. Do not be persuaded to take some substitute.

Pope Leo Has \$20,000,000.

Rome, Aug. 29.—It is estimated that during his pontificate, Leo XIII has amassed \$20,000,000, including presents of precious stones, gold and silver, to the value of \$10,000,000.

President Kruger, of the Transvaal republic, is said to have presented the Pope with the largest diamond in the world. It is valued at \$4,000,000.

Canada's Opportunity in Hog Raising.

1. Great Britain and Ireland are losing thousands of hogs annually through swine fever; during the first 27 weeks of this year 27,648 diseased or exposed to contagion, being slaughtered and the movement of hogs from place to place is restricted. There have been more outbreaks of the disease this year than last. Canada has not this obstacle to contend with. We have healthy hogs.
 2. We can grow practically unlimited quantities of the choicest swine foods in the world.
 3. Our climate and water supply for this industry in conjunction with dairying is unsurpassed on the globe.
 4. We have unequalled pure bred foundation stock, and the general hogs of the country are of a fairly good type.
 5. Our breeders and farmers are progressive, enterprising, intelligent.
 6. Our packers have already demonstrated their skill in sending pork products to England that are crowding the best for top place.
 7. Our food products are growing more popular in Britain every day, and are being boomed by their intrinsic merit, private enterprise, and government effort.
 8. The increase of our exports of bacon and hams to Britain in 1897 exceeded 1896 by nearly \$1 400,000.
 9. Transportation and cold storage facilities are being improved.
 10. England imports annually about \$55,000,000 worth of pork products. We sent last year less than \$6,000,000, while Uncle Sam furnished \$30,000,000, and little Denmark some \$14,000,000 worth.
 11. New packing houses are springing up at various Canadian points, and old ones enlarged and improved.
 12. Should the returns not pay the farmer, he can easily slacken production.
 13. Swine raising but tends to conserve soil fertility.
- Moral—Let Canada get up and possess the land.

An Absent-minded Man.

The absent-minded man took his seat at the restaurant table, and, as usual, buried his face at once in a newspaper.

"What shall I bring you, sir?" asked the waiter.

"What's that?" said the absent-minded man, starting up suddenly, not remembering what it was all about.

"What do you want for lunch, sir?" the waiter asked again.

"Oh! yes," said the absent-minded man, trying to collect his wits. "Bring me a cup of coffee and a ham sandwich."

The waiter supplied the order, and put a large pastboard ticket for it down on the table, the absent-minded man continuing to read his paper. The waiter went away to attend to the wants of other people, and about fifteen minutes later came back.

"Do you wish anything more?" he asked politely.

"Yes!" snapped the absent-minded man, somewhat viciously. "Go and get me a fresh ham sandwich. The one you brought me was as dry as a bone!"

"Why, here is the sandwich I brought you, sir," said the waiter, pushing the plate towards him. "You've eaten the ticket!"

Well, That's Cool

Is what everyone says when they get a glass of Soda from Thistle & Co's new fountain. "How refreshing" are other expressions. The new fountain, which is a picture to look at, produces many different flavored Sodas, including Cream Soda and Orange Phosphate. Call and get a drink. A no more refreshing nectar flows in Carleton Co. This warm weather is fatiguing, don't suffer with the heat, cool yourself at Thistle's fountain.
