

Advice To Mothers.

The Health of Their Daughters should Be Carefully watched.

Young Girls Susceptible to Troubles That May Result in Decline—Pale Faces, Headaches and Fickle Appetite the Symptoms of Early Decay.

From the Sun, Orangeville, Ont.

Some months ago Maggie, the fifteen-year-old daughter of Mr. and Mrs. J. Sweeney, of John street, of this town, began to fail both in health and spirits. Her face was almost as white as chalk, her appetite very fickle, and her limbs began to swell. Notwithstanding her growing weakness she persisted in attending school until one day her teacher advised her to go home, and not to return until she felt better. At the same time the teacher, who knew the value of Dr. Williams' Pink Pills in such cases, advised her to take them. The advice was followed and Mrs. Sweeney told our reporter that almost from the outset there was an improvement in her daughter's condition. Her appetite became better, the color returned to her face, and the severe headaches that had made her so miserable vanished, and she is now feeling better than she has done for many months.

It is quite evident that this young maiden was suffering from a lack of blood, as do so many young girls who are just at a critical point in life, and it is quite as apparent that there is no other remedy the equal of Dr. Williams' Pink Pills in such cases. They enrich the blood, stimulate the nerves and build up the entire system, and mothers will act prudently if they insist upon their daughters taking an occasional box. We know from experience that Dr. Williams' Pink Pills have done great good in Orangeville and vicinity, and there is scarcely a day that our reporter does not come in contact with some one who has a good word to say for this wonderful medicine.

Dr. Williams' Pink Pills cure by going to the root of the disease. They renew and build up the blood, and strengthen the nerves, thus driving disease from the system. Avoid imitations by insisting that every box you purchase is enclosed in a wrapping bearing the full trade mark, "Dr. Williams' Pink Pills for Pale People."

Origin of Strong Drink

Interesting Facts Regarding its Manufacture And Sale.

Strong liquors are of modern invention, for the ancients knew of nothing more powerful than lightly fermented wines, and they have left many warnings of the abuse of them. Alcohol was not discovered until the seventh century, and the distillation of spirit from wine was not discovered until the twelfth century, while spirits did not come into common use until the fifteenth, sixteenth, and seventeenth centuries. Prof. Arnoldus Villanova,

in the fourteenth century, made a panacea of the 'water of life,' which was said to have the virtue of 'giving sweet breath, fortifying the memory, besides being good for sore eyes, the toothache, gout,' etc. Distilled spirits came into use in London in 1450, and had to be prohibited in 1494. Michael Savonarola produced a treatise on the making of 'water of life' in the fifteenth century, which became a standard authority on the subject, and was followed by the work of Matthioli, of Scienna. These books gave an impetus to brandy-making in Italy, whence the trade extended to France. About 1520 the Irish usquebaugh began to acquire reputation in England. Before 1601 'brand wine' had begun to be distilled in the low countries from apples, pears, and malt; and in that year an ordinance was passed at Tournoy forbidding the sale of the liquor, except by apothecaries, partly because of the dearness of corn and partly because of the drunkenness which this cheap brandy wine caused to the great prejudice not only of homes and lives, but to the extreme danger to the souls of its drinkers many of whom had died without confession.—N. Y. Ledger.

A Shaver Gone to War.

A barber of Lubec, Me., has closed his shop and posted the following notice on the door: To the Public:—This barber shop will be closed for a brief period, as the proprietor has gone to help a few of Uncle Sam's barbers (better known as soldiers) scrape the face of the western hemisphere clear of an abnoxious growth of whiskers, commonly called Spaniards. I shall not be gone long as Dewey and Sampson are applying the lather, and everything points to a quick job, and a clean one. I wish to thank the public for past patronage, and on my return hope to have a share also.

The Kind You Need.

The True, Reliable and Easy Working Diamond Dyes.

When the Diamond Dyes are used the work of home dyeing is a pleasure to every woman. Doubts and fears regarding results are never entertained. There is a confidence in every woman's heart that perfect work will crown her efforts. It is an established fact that all colors of the Diamond Dyes come out in fullness, richness and beauty.

For long, long years Diamond Dyes have been the favorite family dyes in every civilized country, and although imitation package dyes are now being offered for sale by dealers who think more of big profits than of giving satisfaction to the public, the great inferiority of these imitation dyes in strength, fastness, beauty and brilliancy was soon discovered, and they are now avoided and condemned by all who prize good, bright and durable colors.

Thousands of testimonials are coming in from all parts of the country testifying to the excellence and vast superiority of the Diamond Dyes.

Refuse all poor worthless and imitation dyes when they are offered to you. Ask for the "Diamond," and see that the name is on each packet.

Book of directions and card of 48 colors free to address. Write to Wells & Richardson Co., Montreal, P. Q.

HOW ARE—
