

**AGONIZING PAINS.**

Endured by Those who Suffer from Sciatica—A Victim Tells How to Obtain Relief.

Probably no trouble that afflicts mankind causes more intense agony than sciatica. Frequently the victim is utterly helpless, the least movement causing the most agonizing pains. Those who are suffering from this malady the following statement from Mr. John Hayes, of Hayesville, York Co., N. B., will point the road to relief and cure. Mr. Hayes says:—"For upward of twenty years I have suffered from weakness and pain in the back. Some four years ago my trouble was intensified by sciatica settling in my right leg. What I suffered seems almost beyond description. I employed three doctors but all to no purpose: I had to give up work entirely, and almost despaired of life. This continued for two years—years filled with misery. At this time I was advised to try Dr. Williams' Pink Pills, and after using six boxes both the sciatica and the weakness in the back which had troubled me so long were gone. I was again a well man and feeling fifteen years younger than before I began the pills. Nearly two years have passed since I discontinued the use of Dr. Williams' Pink Pills, and in that time no symptom of the trouble has shown itself. Under God I thank Dr. Williams' Pink Pills for what they have done for me."

Mr. Hayes voluntarily testifies to the truth of the above statement before Edward Whosead, Esq., J. P. and his statements are further vouched for by Rev. J. N. Barnes, of Stanley, N. B.

**It Attracted Attention.**

There are queer signs displayed in every city which find their way into print, and Grand Rapids has its share, but the palm is yielded to the following which has drifted in from the far east. Mrs. Marshall, an indigent widow, went into the laundry business on a small scale. She had her sign painted upon the shutters like this.

The next morning when she went out to see what caused the crowd in waiting there, she found that the left hand blind had been blown back by the wind and the sign hardly read as she meant it should, although it accounted for the crowd.

**Beneficial Effects of Coffee.**

A woman writer who gave up coffee recently found that she was unable to continue her writing with any success until she had restored again to the stimulating beverage. Without it her mind was loggy and heavy. The Medical Times quotes an authority on the subject of prescribing coffee as a medicine in certain states of great ability and adds:

"Tea and coffee seem to be much alike in many respects, but the latter is greatly preferable as to its sustaining power. It would be a great advantage for our

working classes and a great help toward the further development of social sobriety if coffee were to come into greatly increased use and if the ability to make it well could be acquired. As an example of the difference of effect of tea and coffee upon the nerves, the writer notes, what he believes many sportsmen confirm, that it is far better to drink coffee than tea when shooting. Tea, if strong or in any quantity, especially if the individual be not in very robust health, will induce a sort of nervousness which is very prejudicial to steady shooting. Under its influence one is apt to shoot too quickly, whereas coffee steadies the hand and gives quiet nerves."

**An Old Party.**

On Saturday evening Mr. and Mrs. N. A. Rhodes, of Amherst, entertained eight of the oldest citizens of Amherst, at supper, at Sycamore Lawn. The combined age of the party was 670 years, an average of nearly 84 years. The guests were Messrs. Jas. Layton, 73 years; John Barnes 80; E. Newcomb, 85; John Steele, 88; Cyrus Black 88; Nelson Forest 84; J. W. Smith, 86; John Wood 86. A group photograph of the party was afterwards taken and Amherst can challenge the world to produce a group of such fine looking men, who bear the weight of so many years, as do those who formed the Sycamore Lawn party.—Amherst News.

**WILL I SUICIDE?**

While There's Life and Dr. Chase's Catarrh Cure There's Hope.

I had suffered so many years from catarrh that I don't know that I will ever get it out of my remembrance. One day, when I took one of the endless prescriptions given me by the medical man to a druggist, I asked him bluntly, "Will this cure me, or will it not? Or will it be like the rest?" I was nearly desperate, I can tell you. The druggist said:—"No, nothing can cure catarrh. I have it myself until I often think of suicide. I take opium usually to sleep it off." I took the prescription away unfilled and went home, thinking of what the druggist had said about suicide, and I was utterly disheartened. I have that prescription yet. One day my deliverance came. A lady told me she had suffered just as I had, and was nearly insane, and that a remedy known as Dr. Chase's Catarrh Cure had actually cured her. I had read a lot about Dr. Chase's Catarrh Cure, but I felt toward it as I did toward other medicines; had no faith. I tried it as a last resort. I used two boxes of Dr. Chase's Catarrh Cure, and found it a complete cure.
