Household Brevities.

A wrinkle given by a country woman is that her way of keeping a cut cheese from moulding and spoiling is to wet a piece o' cloth in vinegar and wring it out as dry as possible. Wrap the cut cheese in this damp cloth. Then roll it in paper and keep in a cool place.

Saucepans should always be kept bottom upwards and without their lids. If there is no proper pot-stand, they should project about one inch beyond the shelf or board, so that the air can get to them freely, and thus treated, they never acquire a musty flavour, however long unused.

Closet floors and shelves washed with hot water and cayenne pepper will tend to keep away ants and roaches. Borax and alum may be sprinkled under the shelf paper, or an underlay of tar paper is effective.

Half a dozen ordinary marbles, such as boys play with, bobbing around on the bottom of a kettle of fruit or juice that is being cooked preparatory to jelly or canning, will lessen the amount of stirring necessary to prevent burning.

Many women throughout the country make pin money out of their chickens. We have known of women who have clothed the entire family with the proceeds of the poultry yard, and some have paid off mortgages, and others bought their homes by intelligent management of their flocks. Everybody interested in chickens should get Biggle Poultry Book. It is so full of helpful suggestions and short cuts to success, and has so many years of costly experience boiled down for its pages, that it is poor economy to be without it. It will help increase the income from the poultry yard, and has started many an amateur or misguided professional on the right track. The price is fifty cents, free by mail; address the publishers, Wilmer Atkinson Co., Philadelphia.

The Merry Girl.

The woman who is bright and good tempered and merry will find more people anxious to talk to her than if she had the wisdom of Hypatia or the wit of a Mme-de-Satel. Clever and witty people are not invariably successes in society. Wit is often barbed and as often beyond the comprehension of listeners. The sharp tongue is more often to be dreaded than not, for no one can be sure what will be the next shaft or who aimed at. Wisdom is apt to disconcert those who are not wise, and to put people at their ease should be one of the first principles of good society.

The Teller.

A charming story by the author of "DAVID HARUM" has reached us this week. An unusual subject for romance, the hero a Bank Teller, falls in love with the daughter of one of the directors, and the plot deals with the difficulties and complications, which ensue, in an interesting and admirable manner. The story is published by The Poole Printing Company, Limited, Toronto, and is for sale by all newsdealers, at the low price of 15 cents, or will be sent postpaid by the publishers on receipt of price.

Keeps Mother In Repair.

A nap after dinner is worth two hours of sleep in the morning to mother, and she declares she could not be happy without. Mothers, more than most people, wear out if they are not repaired, and it is the duty of the family to see that repairs go on before the dear tenement alters. So many people paint the house and have the homes cleaned and repaired and the furniture retouched who never think of repairing the mother. — Philadelphia Press.

For Weak and Aching Eyes

An old time lotion weak and aching eyes is a weak decoration of sage leaves. Pour a quart of boiling water over a handful of freshly picked leaves, cover closely and allow it to steep gently on the back of the range. Strain and bottle.

Aged Pedestrian.

Charles Jameson, who is ninety-two years of age, desired to visit friends at South Princeton fifteen miles from here last week. Not even a ride on the newly equipped railroad held any inducements for the smart old gentleman to abandon his usual method of covering long distances, and he made the journey there and back on foot and in good time. — St. Croix Courier.

The editor of the Farm Journal asks: "Why have a mortgage on the farm, poor crops, rheumatism, sour bread, grip, leak in the roof, hole in the pocket, skeleton in the closet, or any other pain or trouble, when you can get the Farm Journal for the balance of 1899, and all of 1900, 1901, 1902, and 1903, nearly five years by paying a year in advance for the ADVERTISER? This you can do if you are not too late." Come in and see about it.

Our TORNADO Threshing Machine

ADMITTED THE BEST.

We have a good many unsolicited letters like this one from Mr. Grant: CENTRAL SOUTHAMPTON, York, Co. 17, Dec. 1899.

CONNELL BROS, Woodstock, N. B.,
DEAR SIRS.—As we are about through with this season's threshing and as I am aware you feel interested in the machinery you manufacture, no doubt it will be pleasing to you good reports of same. The TORNADO Threshing Machine manufactured by you that we bought from you in August last has proved to be the best Threshing Machine that has been in this section of the county. That is the unanimous verdict of every man that the machine has done work for. She has threshed for thirty men in this section, and men that never were satisfied before were more than pleased with the work the machine did they were satisfied they got all their grain and well cleaned, even the women were pleased because they did not have a crew of men around several days threshing a small quantity of grain.

The Machine has threshed this season about ten thousand bushels of all kinds of grain and I am happy to inform you that there was not one thing broken about the machine, not as much as a tooth. She has threshed over a bushel a minute, and with a suitable team, she will thresh 300 to 400 bushels a day. It is gratifying to me to congratulate you for perfecting and manufacturing the best two horse power Threshing Machine in the Dominion of Canada and also in the world.

Wishing you a Merry Christmas and a happy New year, I remain,
Yours truly, (Signed) H. C. GRANT
