Our TORNADO Threshing
Machine

ADMITTED THE BEST.

We have a good many unsolicited letters like this one from Mr. Grant:
CENTRAL SOUTHAMPTON, York, Co. 17, Dec. 1899

CONNELL BROS. Woodstock, N. B.,
DEAR SIRS—As we are about through with this season's threshing and as I am aware
you feel interested in the machinery you manufacture, no doubt it will be pleasing to you
good reports of same. The TORNADO Threshing Machine manufactured by you that was
bought from you in August last has proved to be the best Threshing Machine that has
been in this section of the county. That is the unanimous verdict of every man that the
machine has done work for. She has threshed for thirty men in this section, and men
that never were satisfied before were more than pleased with the work the machine did
they were satisfied they got all their grain and well cleaned, even the women were pleased
because they did not have a crew of men around several days threshing a small quantity
of grain.

The Machine has threshed this season about ten thousand bushels of all kinds of grain,
and I am happy to inform you that there was not one thing broken about the machine,
not as much as a tooth. She has threshed over a bushel a minute, and with a suitable
team, she will thresh 300 to 400 bushels a day. It is gratifying to me to congratulate you
for perfecting and manufacturing the best horse power Threshing Machine in the
Dominion of Canada and also in the world.

Wishing you a Merry Christmas and a happy New Year, I remain,
Yours truly, (Signed) H. C. GRANT

Connell Bros. M'rs. Woodstock.

J. T. G. CARR, Sole Agent for Hartland.

BIGGLE BOOKS

A Farm Library of unequalled value—Practical,
Up-to-date, Concise and Comprehensive—Hand-
somerly Printed and Beautifully Illustrated.

Dairy Notes.

Take the horns off the cows.
Much milk requires much feed.
Milk is good to increase the flow
of milk.
Do not breed from a cow that has
abortive twice.
Don't use beef cows if you want to
succeed in dairying.
Cows will not do their best unless
well fed and fed.
A mash is good for milch cows?
asks a subscriber. Yes.
Don't expect for skim milk cheese
the price that Edam brings.
No successful dairyman allows his
cows to be chased by a worthless cur.
It is not always meanness that
makes a cow breachy; it is frequently
hunger.
If churning is done at too high a
temperature the butter will not be
perfect.
Milk should be aerated and cooled,
if it is expected to keep and please
the customer.

When you think the cow has a hol-
ow horn, let the horn alone, but feed
or bring up the general system to a
healthy condition.

Milking should be done at nearly
the same hour of the day as possible.
Cows do better when trained to regu-
larity in milking.

When the people of Great Britain
pay \$50,000,000 for imported butter
no American dairyman should be dis-
couraged.

The Cynic.

Some women always spoil their
husbands' jokes.

A sick old person is harder to man-
age than a sick child.

When we tell a man a good story,
we have noticed that it reminds him
of a mighty poor one.

Notice of Sale.

To Ziba Shaw of the Parish of Brighton, in
the County of Carleton and to Rachel
E. Shaw, of the same place, wife of the
said Ziba Shaw, and to all others whom
it may concern:—

TAKE NOTICE that there will be sold at
Public Auction in front of the office of W. P.
& T. M. Jones, Attorneys at law, on Queen
Street in the Town of Woodstock in the said
County of Carleton on Saturday the thirtieth
day of September next at eleven of the
clock in the forenoon, the following land
and premises, namely:—

A tract of land situate in the Parish of
Brighton in the County of Carleton aforesaid
and bounded as follows, to wit:—Beginning
at a post standing on the south western bank
or shore of the north branch of the Becca-
quimic river at a point where the southern
line of the lot granted to Benjamin Stack-
house intersects the same, thence running
by the magnet north seventy-two degrees
west thirty chains to a birch tree thence
north eighteen degrees east fifteen chains to
an ash tree, thence north seventy-two de-
grees west ten chains, thence south eighteen
degrees west thirty-four chains and thirty
links, then thence south seventy-two de-
grees east forty six chains to another post stand-
ing on the south western bank or shore of
the north branch Beccaquimic river afore-
said and thence along the same following
the various courses thereof in a north west-
erly direction down stream to the place of
beginning containing one hundred acres
more or less being same land granted to said
James A. Stackhouse 10th October 1880 and
by him and wife conveyed this day to said
Rachel E. Shaw together with the build-
ings and improvements thereon and the ap-
purtenances thereto belonging, being same
land and premises described in a mortgage
thereof to the said James A. Stackhouse re-
gistered in the Carleton County Records in
Book X Number 2 of Records on pages 459,
451, and 452 and assigned by the said James
A. Stackhouse to the undersigned by assign-
ment registered in the said Records in Book
W. Number 3, on pages 268, and 269, pur-
suant to a power of sale contained in the
said mortgage default having been made in
the payment of the moneys thereby secured.
Dated this 12th day of August A. D. 1899

pools, letter paper, writing pads, envelopes,
tools cap, note and receipt forms, pens, lead,
pencils, etc., to make room for our goods

Buckwheat in Orchards.

There is no grain crop that can be
grown in orchards to better advantage
than buckwheat. It is not exhaustive
and its broad leaves shade the soil so
that it does not make the land dry as
other grain crops do. Besides, one of
the effects of buckwheat growing is to
keep the soil mellow so that every rain
will soak into the soil instead of remain-
ing on the surface until winds and sun
dried out the moisture. It is the prac-
tice of some orchardists to sow buck-
wheat in orchards two or three times
each year, plowing under the growth
as soon as it was in blossom or before.
This fills the soil with vegetable mat-
ter, making it very porous. It often
turns the last buckwheat growth to
humic acid if a wet winter follows.

William Penn's Wisdom.

A part of William Penn's wisdom and
brotherly love was shown in his treat-
ment of the Indians. To his first com-
missioner in this new province, he
wrote: "Be tender of offending the In-
dians. . . . Make a friendship and
league with them. Be grave; they love
not smiles." He himself, after his ar-
rival in America, purchased land of the
Indians and entered into a great "prom-
ise of friendship." At a later date he
wrote: "We leave not the least indig-
nity to them unrebuked, nor wrong un-
satisfied. Justice gains and awes
them." So Pennsylvania was long free
from Indian dangers, and not until the
later troubles with France began was
the progress of the colony seriously
threatened.—Boston Budget.

A Fair Return.

The story is told of a country parson
who said to the village tailor: "When
I want a good coat I go to a London
tailor for it. That's the place. By the
way, do you ever go to church?"

"Oh, yes, occasionally."

"Where do you go?"

"Well, when I want to hear a good
sermon I go to London for it. That's
the place."—Tit-Bits.
