For a hundred years, from the time-in 1781-that the modern Messilinar, Catherine II, with her evil and covetous eye, admired the majestic aspect of the Daghestan mountains, which interpose their snow clad ramparts between the Russian steppes and the garden lands of Tiflis and Georgia, to the month of May last, when the Minegelian insurgents surrendered and were expelled en masse, the Russians waged almost incessant war with the Caucasian Highlanders ; carried fire and sword and the knout through their mountain homes, and ceasing only, at the indignant voice of Europe, from utter extermination, banished the remnants. to find an asylum where they could, or, in seeking in vain, to perish miserably. In all history there is no record of a more gallant defense against an invader than that made by Shamyl Ben Haddin, and his small bodies of Circassian hillmen in the defiles and passes of the Caucasian ranges, against the overwhelming numbers of the Muscovite soldiery a contest which he maintained for twentyfour years.
