THE WHEAT CROP IN YORK .- A prominent farmer informs us that such a wheat crop as has been harvested this season, has not been grown in York County within the remembrance of the "oldest inhabitant." Fully two-thirds of the farmers of the County will have sufficient to produce a year's bread for their families, which is a satisfactory state of affairs. A farmer in Kingsclear, from five bushels sown, harvested sixty eight bushels of the first quality of wheat. The prospects for a profitable return from Mr. Gibson's enterprise in building a new grist mill is most promising as a result of successful wheat growing.

PROVINCIAL EXHIBITION OF 1880.—The Secretary for Agriculture visited St. John on Wednesday to examine the Drill Shed and the Barrack Green and report upon the suitability of these for exhibition purposes. His observations will lead him to report favorably to the Local Government, by whom he was deputed and if no difficulty arises in the matter of obtaining the use of the building and grounds, the exhibition of 1880 will, in all probability, be held there. Application having already been made to the Dominion Government for the use of the same, the matter has been referred to Lieut.-Colone Maunsell, whose recommendation will un doubtedly be accepted by the Dominion authorities.
