The above sale will be made under Power of Sale contained in a certain indenture of assignment of Lease by way of mortgage, bearing date the eleventh day of Jenson and Louisa B. Long of the one part, and the undersigned Jane Dibblee of the other part, recorded in Book J 3 of York County Records, pages 349, 350, 351 and 352, default having been made in payment of the moneys secured by said Indenture last named. The leading article in the North American

Review for March is by ex-Judge Jere. S. Black, and is entitled "The Third Term," being a reply to ex-Senator Howe's paper on that subject in the Review for February. Mr. Black holds that to elect General Grant to a third term of office in the bresidential chair would be a violation of a custom that is stronger than any laws or constitutions whatever: that it would in effect be the end of our republican institutions, and the enstallment of "empire." Hon. E. W. Stoughton follows Mr. Black, taking precisely the contrary view, that not only is a third term not a thing to be deprecated, but that it is eminently desirable, especially if, as in General Grant's case, an interval of time has elapsed between the second term and the third. A timely article by David A. Wells aims to prove that a discriminating income tax is essentially Communism, and that this tax is essentially Communism, and that this is specially true of such an income tax as was levied in the United States py Acts of Congress in 1863 and succeeding years. The fourth article is by Rev. Dr. Bellows, and treats of Cival Service Reform. The author recounts what has been done in Britain to reform the cival service of that country, and shows how the experience of British statesmen may be turned to advantage by American lawmakers. Professor Simon Newcomb, in an article on "Our Political Dangers," calls attention to the need of some nonpolitical tribunal for the determination of contested elections. He looks on the presidential struggle of three years ago, and the recent excitement in Maine, as symptomatic of a diseased political condition which calls for remedies very different from those which have hitherto been employed. John Lancaster Spalding, Bishop of Peoria, makes a spirited reply to Froude's recent article on "Romanism and the Irish Race in America."

The opening of the Legislature on Tuesday was a rather more brilliant affair than usual. There were several circumstances that went to invest the occasion with especial interest.

The Legislature met in new Halls, and was opened by a new and popular Governor. The burning of the old Parliament Buildings a fortnight ago created a genuine sensation at the time, but it has been over-shadowed by the movement on foot to remove the Seat of Government. Although the efforts of St. John do not create the least alarm in this city the people here are anxious to know just in what form the question will come up in the Legislature, and so the opening to them was interesting. All the members but Dr. Lewis and Mr. Turner of Albert County and Mr. Sayre were present. The Lieut. Governor was attired in a plain dress, and there was little attempt at pomp or display beyond the flashy uniforms of the military officers, who acted as A. D. C. to His Honor, and the booming of the guns stationed in the Barrack Equare. Capt. Cropley's Company, with the Batt. Band, formed the Guard of Honor. There were quite a number of ladies present on the floors of the House, and their presence of Rod has lost none of his politeness, nor the Sergt .- at-Arms his grace of movement, and even the Pages do not seem to have changed bear such a resemblance to the old ones that a stranger could scarcely tell that there have been such changes. The furniture is the same, the carpets, in

fact everything; but there are no howling winds echoing through the chambers, nor yet snowdrifts pervading the corriders. Comfort reigns. The year 1880 will be a page in the history of the Normal School building of New Brunswick well worthy preservation. It gave shelter to a homeless Legislature, and its walls echoed with the ring of the patriot's speech and the calmer reasoning of statesmen.
