ment to give the syndicate money and lands | ways of thinking. Had he not been a rich both than proceed with the construction of man, he could not have assumed the attitude the road themselves. he has done, or if he had attempted to do it,

Since Sir John in his speech at Father he would have been snuffed out long before McWilliam's Picnic at Bath, assured his this. It shows well for the estimation in tridge Season, in our last issue, has met with hearers that the P. R., would be built with- which he is held in Toronto, in spite of the approval. A misprint in it, "1st of Septemout costing the country a dollar, there have Globe, that he was asked to deliver a speech been several indications that the matter was at the Convention ; and that he was able to not so certain as he then gave out. After invite his listeners after he had delivered it, to a garden party, as he did, was a circumthe Knights had been in England a short time there appeared in the government organ, stance much in his favor, and probably did as the Mail. an article in which it was argued much to gain for him, their good opinion as that if the project to transfer the construc- his wisdom or eloquence. The subject of his address, was education, and some of his retion to a syndicate, failed, the failure would not deprive the people of Canada of a single marks were very much to the point, dollar of money, or a single acre of land, worthy the serious consideration of all neither would it lesson the confidence of have the cause really at heart. We make an Parliament in the resources and destiny of extract :-

the country. The Toronto Globe interpreted the article to mean that Sir John's failure was he convinced that some efficient system shooting, selling and buying, or having in of public education was necessary in free had been " complete, diststrous and crushing,' communities. One cause, and that a moand rejoiced thereat. mentous one, of the French revolution upon

But the Montreal Gazette repelled the which historians had not dwelt, was the un-Globe's assumption, and stated that it was in bounded ignorance of the French people. a position to say that Sir John had not failed. There were no statistics at hand, but not one and the Ottawa Citizen followed up the statement of the Gazette, by declaring that total want of the power of understanding Sir John and Sir Charles had an interview political questions, and there was no public with negociating capitalists who had inspected the maps and plans, showing the productive lands etc., and that there was every prospect of the formation of a powerful and wealthy syndicate ; then came the news (12th inst.,) that the negociations were about being closed. All these statements though pointing to the success of Sir John's mission, do not bear out the confidence with which he spoke at Bath. Probably after he arrived in England, some hitch occurred in the negociations, which no doubt he has now got over. But how ? people would like to know. We imagine by offering the syndicate a money subsidy in addi-

tion to a land grant. If so, it cannot be said that the construction of the P. R., will not cost the people a dollar, though it may be maintained that it will be better to give the

The September number of the North American Review will contain an article on the ruins of Central America, by M. Charnay, the leader of the en dition now exploring the auspices of the Covernments ; also a . Surratt, containing of business men. The scale of prices is most

20th of September.

of the Dominion.

We believe that our article on "the Parber," instead of 20th of September, gives us an foccasion to refer to the subject again. "Ist of September," was an essential mistake, but it could have misled no one, as the quotation we made from the act of Assembly passed last session, clearly gave everybody to ed by the anti-national press of the Maritime understand, that the close season for partridge Provinces against Ontario competition in the (which formerly ended on Ist of September,) was extended to the 20th of September, by that act. Sportsmen and purveyors and pur- They have all along contended that the statechasers must govern themselves accordingly, ments that Canadian industries were being if they would not subject themselves to a crushed out by American competitors was an

"The more he studied, the more firmly penalty, \$20 for each proven offence, for below cost, it was a benefit to us and not an shooting, selling and buying, or having in injury; and that if a Canadian industry possession, patridge before the 20th. It is could not stand the pressure it had better necessary that the law should be enforced, to close down. Now, when Ontario enterprise prevent the slaughtering of the birds when is pushing legitimate business in the Mariyoung and in an immature state, and it is the petition from us that they welcomed on the interest of those who shoot and est, that it part of the Americans. This inconsistency should be, as after the 20th, the birds afford only goes to show that the anti-tariff senti-Frenchman in twenty at that time could read. There was, therefore, among them a better sport, and are in better condition.

During the last week there has been a press. The masses having no means of inslight revival of the Fenian excitement in formation would readily credit anything. Contrast such a state of things with that in consequence of the raid of a gang of marau-England, this country, or the United States. ders on board the ship "Juno" in Cork Har-Any one could see that these communities bour, in search of arms; a long sensational have a sheet-anchor of safety in the fiercest storms. He always felt that in the intelli- article in the New York Herald, on the pregence of the masses of the people there was sent strength, organisation and future intena reserve of saving force which, at the last tions of the brotherhood ; of the appearance of extremity, would come into play. Every free country must feel that, though they pay several suspicious looking Americans in some high for it, education is their best invest- of the towns and cities of Ireland, and of the ment.
