As he reached them the man saw the hopeless obstruction, and wheeled his horses. It seemed that the hand of God had snatched them from death. Gently he lifted Christine out upon the sands and commenced bathing her face from the water that broke in spray at his feet. She soon revived and looked around. In a voice full of awe and wonder she whispered:

'Because multitudes will not let Him.'

'Oh, that is worse still. Surely, Mr. Fleet, you let your reason have nothing to do with your faith. How can a poor and weak being like myself prevent an Almightyone from doing what He pleases?'

'I am stronger than you, Miss Ludolph, and yet I could not have saved you to night unless you had first trusted me, and yet I could not have saved you to night unless you had first trusted me, and yet I could not have saved you to night unless you had first trusted me, and yet I could not have saved you to night unless you had first trusted me, and yet I could not have saved you to night unless you had first trusted me, and yet I could not have saved you to night unless you had first trusted me, and yet I could not have saved you to night unless you had first trusted me, and yet I could not have saved you to night unless you had first trusted me, and yet I could not have saved you to night unless you had first trusted me, and the A DAVIDSON'S, Esq., near Hallway then done everything in your power to further my efforts.'

The sun had now risen quite above the waters of the lake, but seen through the lurid smoke swept over its face, it seemed like one of the great red cinders that were continually sailing over their heads. In the !frightful glare, the transition from night to day had searcely been noted. The long narrow beach was occupied by thousands of fugitives. They were hemmed in on every side. On the south was women to the only One who seemingly 'You dolph.' The long narrow beach was occupied by the river skirted with fire, while opposite, could help them in their bitter extremity.

In the situation of supreme peril described in the last chapter, Dennis stood a second helpless and hopeless. Christine rested a heavy burden in his arms, happily unconscious. Breathing an agonized prayer to heaven, he looked around for any possibility of escape. Just then an express wagon was driven furiously toward them, its driver seeking his way out by the same path that Dennis had chosen.

In the situation of supreme peril described in the last chapter, Dennis stood a scene supon Christine, knowing how, in the luxurious past, she had been shielded from every rough experience.
