Is a compound of the virtues of sarsaparil la, stillingia, mandrake, vellow dock, with the iodide of potash and iron, all powerful blood-making, blood-cleansing, and life-sustaining elements. It is the purest, safest, and most effectual alterative medicine known or available to the public. The sciences of medicine and chemistry have never produced so valuable a remedy, nor one so potent to cure all diseases resulting from impure blood. It cures Screfula and all scrofulous diseases, Erysine as, Rose, or St. Anthony's Fire, Pimples and Francisco Russine several times.

Fishermen, whose hands get sore working in the sait, will find this preparation just what they want,

Rheumatism, Mercurial Ulcers, Sores, Rheumatism, Mercurial Disease, Neuralgia, Female Weaknesses and Irregularities, Jaundice, Affections of the Liver, Dyspepsia, Emaciation, and General Debility. By its searching and cleansing qualities it purges out the foul corruptions which

contaminate the blood and cause derangement and decay. It stimulates and enlivens the vital functions, promotes energy and strength, restores and preserves health, and infuses new life and vigor throughout the whole system. No sufferer from any disease which arises from impurity of the blood need despair who will give AYER's SARSAPARILLA a fair trial. It is folly to experiment with the numerous low-priced mixtures, of cheap materials, and without medicinal virtues, offered as blood-purifiers, while disease becomes more firmly seated. AVER'S SARSAPARILLA is a medicine of such concentrated curative power, that it is by far the hest, cheapest, and most reliable blood-purifier known.
