To the Editor of the Maritime Farmer

DEAR SIR,-I don't know what kind of week or so, but I can assure you we have value of such a privilege. been having our share of rain. It commenced on the 15th and kept at it the whole week, with very cold nights. In fact we have not had one warm night yet. There is a great deal of the winter wheat will be a failure, the rains were so long of coming hat much of it would not make sheep pasture on the clay. There is some very fine looking fields on the sandy land. The last two days viz., 23rd and 24th have been ex-

East instead of West, and I think if I were I believe it to be ahead of the West. It is coming to New Brunswick with the intention of taking up land? And have any emi-grants arrived in New Brunswick this spring? If so, how many and from where? in what what kind of a spring are you having. If you or some of your many subscribers would kindly answer some of the foregoing questions, it would be conferring a favor on one vision" may be accounted for. of you subscribers.

Niagara Falls, May 25, 1881. To the Editor of the Maritime Farmer DEAR SIR,-It is strange how long sufferderful, even in cases where interest and convenience are seriously imperilled through the culpable neglect and carelessness of paid and stand and endure. I am led to make these reflections on the amiable weaknesses of suffering humanity, by what has lately come under my own personal observation, in the Parish of Kingsclear. Through that Parish winds in parallel lines with the beautiful Saint John, a new road, along which are some picturesque residences and valuable farms. This road is one of the great high-ways to the Capital. Along its route is The residents who live along the bank of our oad lying between the residence of Captain stream before you come to Major O'Mally's, has been so outrageously out of repair that lately a number of the residents in sheer disgust and despair brought the matter under the notice of the government. They were at first put off, but persistence and determination atllength brought about the "consumination devontly to be wished," and they received a small special grant which is now behad actually become unpassable. As I passed the other day I noticed an English gen-tleman superintending the improvements and learned that the direction of the work had been placed in his hands. Of this, I confess desirable it is to encourage the immigration of such men. I considered how unwise it was to demonstrate our carelessness and apathy by the exhibition of impassable roads and our recourse to English skill in order to effect desirable improvements, which instead of leaving undone we ourselves should have

American Review for June should find nothing

Future Fiscal Policy," treating of the problems of refunding, the remonetization of silver, and the restoration of the United nations of the world. George B. Loring writes of "The Patrician Element in Amerithe castle a home for orphans. Many of the Gladstone servants have been on the estate twenty, thirty, and forty years.

Here is simply the strongest popular element — that portion of the people, whatever their lineage, who are engaged in developing the mental, moral and material wealth of the Republic. Dorman B. Eaton makes a spirited defense of civil service reform; Prof. W. A. A. G. Sumner states very clearly the argument "Is it possible that Mr. Godfrey is up and for free ships; Frederick Douglass writes to at work, and cured by so simple a remedy?" "The color Line;" Desire Charnay, of "The "I assure you it is true that he is entirely Ruins of Central America;" Dr. Austin and only ten days ago his doctors gave him J. M. Mason asserts the lawful power of the continent in prehistoric times.
