

ters treated therein. We have always thought

that our agricultural friends who can handle

the pen as well as the plough could do some-

thing to make the MARATIME FARMER of

pecial interest to their brethren in the Pro-

vince, and that it is for the advantage of all

that they should do this, by recording their

experience of work on the farm, their suc-

cesses and failures, with the view of guiding

and encouraging others, and of obtaining

good counsel themselves. Farmers, generally,

we imagine, like to hear what practical men

of their own order, whom they may know

personally, or by reputation, have to say on

Our readers will be pleased to read their

old friend, Mr. S. L. Peters' communication

" on fruit culture," and to note the great pro-

gress it has made within a short time. It

will tend to stir up those who have hitherto

neglected this branch of agriculture. Mr. S

L. Scofield's letter on strawberry culture. in

reference to the very interesting and suggest-

ve communication of Mr. Fairweather, with

the extract, gives information on a subject

which is of importance to some of our readers.

Mr. John Wilmot's remarks on underdraining

show the great importance of that too much

neglected operation, and the suggestion he

makes is well worthy the attention of enter-

prising men who have some capital, and are

Prorogation of Imperial Parliament.

The Imperial Parliament, after a session

seven months and a half, was prorogued on

Saturday. It commenced with Ireland in a

state of semi-rebellion that demanded the

passage of coercive measures, with Parnell

and the Land Leaguers banded together

obstruct the proceedings of Parliament by all

devices in their power, and it has ended

quietly, with Parnell and his followers po-

litically disarmed, with a comprehensive land

bill in force in Ireland, which has recom-

mended itself to the great body of tenants,

by the justice of its provisions, is not unac-

ceptable to a portion of the Land League it-

self, which has the good word and blessing of

the most influential part of the clergy, which,

with the favoring smiles of Providence, and

series of good years, promises to bring to

not afraid to venture it.

any agricultural topic of common interest.

OUTFITTINC

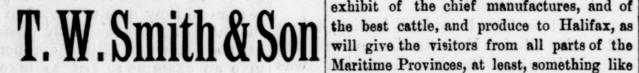

ESTABLISHMENT

and has been induced from his growing trade and the increasing demands of the public, to enlarge his business so as to supply every article required for the covering of man. To carry out this idea, and to enable him to fulfil all orders, he has associated with him his son, H. LE-BARON SMITH, so long and favorably known to his patrons, and has added a customers' few farther between. But they are an inetitution of the times ; and we suppose that those who manage and those who contribute to, and those who visit them, may find that they are of benefit. The chief exhibitions
