

Town and Country.

The Livery Stable men have a dull time and are anxious for snow.

Mr. J. S. Nall has a fine assortment of skates which are in great demand now.

Mr. John McDonald's advertisement of Fall Goods is held over until next week.

The annual Exhibition of the Atlantic Agricultural Society will be held on Wednesday the 30th inst.

Owing to the bad state of travelling this week, the market is unusually supplied. Prices ran as low as last week.

Mr. Robert Orr, on Tuesday slaughtered six hogs, each a year old, which aggregated when dressed 2,500 lbs.

The second annual meeting of the Board of Agriculture will open in this city at 3 p. m., on Tuesday Dec. 13th.

Mr. J. L. Stewart, the well known journalist will assume the editorial control of the Chatham Star the 1st of Dec.

Hon. John McMillan, P. O. Inspector, and W. M. Smith, Steamboat Inspector, were at the Barker House on Tuesday.

Haines, who was convicted here for forgery in 1879, and sentenced to five years in the Penitentiary has been released.

An interesting sketch of the recent stock importation and the result of the sale on Friday, will be found on our first page.

Citizens living on Charlotte Street and vicinity, complain of the unsafe condition in which the Mitchell tank has been left.

The contract for furnishing the desks for the new Parliament Buildings, has been awarded to Messrs. C. E. Barnham & Co., St. John.

Two hundred and fifty joints of ruffed Grouse and about two thousand untrapped, are frozen up in the Fredericton Booms about the city.

We regret to learn that Mr. Chas. N. Clarke, of this city is very seriously ill, and that grave doubts of his recovery are entertained.

The MARITIME FARMER has for its patrons the solid men of the city and country. Read the list of acknowledgements in another column.

Rev. D. D. Currie, St. John, has received a valuable money gift from his congregation. He has postponed his projected holiday trip for the present.

Morrow sea, Waterous, is still before the Sanbury Circuit Court. The Attorney General and Mr. A. G. Blair are the leading Counsel in the case.

Mr. H. B. Pickett, of this city, has been reaping flattering honors at Edinburgh University, where he recently carried off a valuable scholarship.

No serial story ever published in this city, has been read with greater interest than "Lena Rivers," now running through the MARITIME FARMER.

Mr. J. S. Cameron, Inspector of the Bank of B. N. America, was here this week on his annual tour. He was registered at the "Barker" and left for St. John to-day.

Patrick Bradley, in the Police Court yesterday forenoon, was convicted of a third violation of the Sect. Act, and sentenced to two months jail. He has given notice of appeal.

Any Grit M. P., in New Brunswick now, who does not own a newspaper is nobody. There is Mr. Snowball, and Hon. Isaac Burpee, and Sir Albert Smith, and now Mr. Pickett.

Geo. Hatt & Sons, have in store 300 barrels of American and Nova Scotia apples, which they are disposing of at lowest market rates. They include all the well known varieties.

The Mayor and E. Brown Winslow, Esq., on Monday collected over \$300 here for the Woodstock Relief Fund. At the Cathedral on Sunday, the collections for the same purpose amounted to \$125.

Mr. Harry Thorne, of the enterprising firm of Clarke, Kerr & Thorne, St. John, has recently purchased the hull of a schooner, and is to be used for the office of Mr. Geo. Johnston, formerly of the Reporter Office. It is occupied by Mr. H. J. Thorne, ex-Postmaster.

The curer's hopes of a covered rink, for this season, have failed. They will immediately prepare the former rink on officers' Square. The rink was never better organized than now, and never looked forward more enthusiastically to the curling season.

The boilers of the steam heating apparatus in the Parliament buildings, were tested on Tuesday, by Steamboat Inspector Smith, and proved eminently satisfactory. The work of constructing the apparatus and putting in, was done by Messrs. Wisdom & Fish, St. John.

We are glad to learn that Mr. Mills, of Beaufort, has been appointed executor on his property. Professor Hind, some years ago in a report testified to the presence of silver in that locality. Mr. Mills has consulted with Edward Clark, who is one of our mining experts, and intends to develop the "Hind."

The business of the American Express Company increases each week with wonderful volume, under Mr. Dickie's management. The rates remain as low, however, during the winter as in summer. The work of the company is heavy shipments of butter and poultry to the American market, which the Company handles with the greatest despatch.

Mr. J. L. Inches, advises to let, possession given by May 1882, the commodious store and warehouse, on the corner of Queen and York Streets, at present occupied by Mr. J. G. McNally. There is not a more desirable situation in the city, for any kind of business, than this premises, which will be leased for one or more years, at a desirable rate.

We are glad to learn that Mary Walker, the young girl who was the victim of the Canning Factory, a few weeks ago, is fast recovering under the skillful treatment of Dr. Black. It seems to require but a few more days, and we are informed that the unfortunate girl will in a few days be almost completely restored to health and vigor.

Mr. R. A. Estey, of the West End Saw Mill, will commence on Monday sawing shingles for Mr. E. H. Burpee, who has a contract for 4,000,000. A few days more open weather would have enabled Mr. Estey to have cleared out all local contracts. He has done a fine business the whole season and his shingle contract will keep three machines running the greater part of the winter.

Messrs. Risteen & Co., commenced this week their contract of manufacturing sashes for three hundred and seventy-five windows of the new cotton mill at St. Stephen. Several sets of sashes have already been made, and it is expected that the contract will be completed in a few days.

Messrs. Risteen & Co., have been pushing orders for the past three months, that their employees have worked a quarter extra, five days every week. We are glad to chronicle this enterprising firm's prosperity.

There was a very slight fire in Samuel Cook's tenement house on King Street, occupied by Isaac Burden, tax collector, at 4 p. m., on Tuesday. It caught, probably from the chimney, but had gained little progress before being extinguished. The fire department were promptly out, and the Hook and Ladder Company, but the fireman's assistance was not required. The hook and ladder men, however, ascended the roof, and with a few buckets of water put down the flames. There was a general stampede to the scene of the fire, but the crowd was most agreeably disappointed.

Mr. Vennor, the weather prophet, made a good hit on Tuesday. He said it would be a foggy day. Here is his last prediction contained in a telegram dated at Montreal on Monday: "I see indications of extremely cold and stormy weather with snow showers in the neighborhood of the 24th and 25th of the present month for Newfoundland, Nova Scotia, Halifax, and the Maritime Provinces generally; also the Upper Lake and north-westward to Winnipeg. This snow, however, will again disappear in a subsequent mild spell. England and Scotland will probably likewise share this wintry weather; also New York City."

Two young men named Virtue and Amos, called Mr. Richard Cartwright's hotel, Queen Street, Monday night, and before they left gave the proprietor cause to remember their visit. Virtue insisted that Amos, who he said was intoxicated, should remain all night, but Mr. Cartwright thought otherwise, and ejected Amos, with Virtue's assistance. No sooner had the two reached the sidewalk than they began to kick the door, which refused to give way to their assaults. They then attacked the windows, and before leaving broke twelve panes of glass, besides pommelting Mr. Cartwright. A warrant for their arrest is in the hands of the Police.

The dangerous practice of "hazing" so prevalent in the Universities and Colleges everywhere, is well illustrated by the sad result following such a habit in Bowdoin College, Maine. A recent exchange says that—Sawell O. Strout, of Portland, Me., has brought a suit against seven Bowdoin students, for injury done to his son, a freshman, by hazing. The boy's sight was injured by a piece of coal being thrown through a window. \$10,000 damages is asked for the injury. The suit is indulged in to a somewhat limited extent in the University of N. B., but its discontinuance may be expected with such an example as the above before the Students.

During the celebrated debate on the question of the Penitentiary Buildings, held at the Attorney General and Mr. Blair were warmly accused of forming a coalition of parties that might result in disaster to somebody, we do not remember who. Again we have the same insinuation made in the press of the like. Tuesday morning we observed the two gentlemen forgetting of all political differences, and apparently supremely indifferent to the issue in the same direction of Ormoco, where for the past three weeks they have been engaged in a suit noticed elsewhere. Surely there will be no want of confidence resolutions this season.

Mrs. Vassour's residence, St. John Street on Friday night, had a narrow escape from destruction by fire. About 8:30 o'clock it was discovered that the interior of the roof in the top story had caught fire from the chimney, where the pipe enters, which is considered defective, and should be looked after by the owner of the property. This is the third time the house has caught fire from the same source. It was very unwise for the City Council to abolish the office of Fire Inspector. The office was a most important one, and the late Inspector, Mr. Jas. Farrell, performed his duties well. We shall not be surprised to hear of more fires from such causes. Householders should be very careful in this matter, the more so no official notice is taken of any defects.

At the last regular weekly meeting of St. John's C. A. T. A. Society, the following resolutions were adopted:—Whereas, this Society has learned with sincere sorrow of the death of Water Brown; therefore Resolved, that by his lamented decease, we have lost one of our most constant and respected members, and one whose relations with us have been of the most agreeable character.

Resolved, that this Society deeply sympathize with the members of deceased's family in their affliction.

Resolved, that a copy of the foregoing resolutions be forwarded by the Recording Secretary to the family of deceased, and be published in the local papers.

The river is completely closed, and there is no difficulty in crossing to the opposite shore from any point in the city. The ice began to make on Saturday, but not until Monday was the crossing best not to run any risk, and sailed at 3 p. m. The ferries had considerable trouble on Monday in making their trips, which were entirely suspended on Tuesday, when the water became extremely cold, and yesterday morning the bridge was completely broken. Three woodboats, which had just discharged below the City Hall landing, have been caught, and unless there is a soft spell they will be spoiled to winter with us. It was about the average time of closing.

The Concert to be given to-night under the auspices of the St. Dunstan's Total Abstinence Society, in their hall Regent Street, will be well worthy a notice. We understand that the concert has been in training for several weeks, and the programme which we publish below contains many gems of real merit. The club was never better organized than now, and never looked forward more enthusiastically to the curling season.

We have read from the publisher Messrs. Oliver, Denton & Co., Boston, a copy of Mr. L. O. Emerson's new singing book, "The Ideal," one of the best arranged musical books that has come under our notice. It contains a practical "singing school course," together with Hymn tunes, Anthems and Spiritual songs of the best quality, and a series of secular nature for practice and social gatherings and concert singing. The music is new, interesting and entertaining, and has been selected from the best and most reliable sources, and is arranged in an accessible place in the work of the singing school for some time to come. Orders will be filled on application to the publishers, or by Mr. M. S. Hall, Fredericton.
