Another distressing accident has happened from the careless handling of firearms. At Sussex, on Monday, Hallett Fairweather, Son of the proprietor of the "Exchange Hotel," in an upper room was in the act of capping a sporting cartridge shell which had already been charged with powder. The cartridge exploded in his left hand which was deeply cut in two places, and a fragment of the shell made a fearful gase across the innerside of his right eve extending from the eyebrow to the cheek bone and apparently very deep into the eyeball. Doctors Ryan and Burnett were called in at once and Dr. Coleman, of St. John, was telegraphed for also. The cartridge shell had three pieces

Piano Box Wagons, Concord Wagons. Iver's Wagons, Miller Spar Wagons, White Chapel Wagons, Top Phætons, Croning Wagons, Brewster Wagons, Open Phætons. Soe Manufacturers of Miller's Patent Shifting Rail.

These Shifting Tops have no rival, as a glance at the cut will show for itself; it is so simple. It requires only one person to take it off or put it on, and when off no one would think a Top had been on, as no unsightly ends are sticking out. When the Top is on it is as firm as a rock. It can be put on any carriage in use. Persons ordering Buggies or Canopy Top Carriages should see that they have this Rail, as it will be greatly to their interest.

These Tops were awarded a Diploma at the Provincial Exhibition in October, 1880 Particular attention given to orders. Repairing done in the best manner, and at the shortest notice
