The Exhibition. The meeting of the Citizens' Executive Committee in St. John, on Saturday last, has we would fain hope, forwarded matters in connection with the Exhibition and put an end to all unpleasant feeling. The people of St. John, from statements there made, must see and acknowledge that the Board of Agriculture, while mindful of its own authority and responsibility, have acted most considerately and liberally towards them, and left them free, by the work of the several committees appointed by themselves, to make the Exhibition a worthy exposition of the progress made by their city in a century. As the Exhibition is not to be solely a St. John affair, but Provincial, and even Dominion. it is but fair and reasonable that persons outside of St. John should have a say in the general management; and as the Board of Agriculture, or rather the Local Gov-

ernment, will have to make good any financial deficiencies, should there unfortunately be any, it is right and proper that they should have some control over the expenditures. The statements made at the meeting so fully sustain the position which we took last week, that it is not worth while to follow the Globe through all its misrepresentation of the Board of Agriculture.

We hope, through hardly expect, that the Globe will cease stirring up strife and difficulties where none need exist. Even inadvertently it cannot help showing its animus. Its report of the Saturday meeting was headed "The Execution," as if the idea of hanging every body connected with the Exhibition was running in the imagination of the editor. Let the Globe cease its snarling and obstructive course, and undertake the patriotic work of urging the citizens of St. John to put into Men's Boots and Shoes, "execution," the work they have undertaken, along with the Board, and make the Exhibi-

Business has revived, her agricultural prospects take our word for it, but come and are much improved, the brilliant success of the campaign in Egypt has revived her military prestige, shaken by discomfitures in South Africa, and the unsatisfactory Afghan war; and Ireland is settling down to a grumbling peace; the Land League has expended its power for mischief, the American fund which sustained it has fallen low, and Parnell has got the upperhand of the Davitt-Dillion faction, and will work for further reform in the land's laws, and for local government, in constitutional grooves. There is every prospect that the government will

carry their cloture measure, which will put in the power of a majority of the House to put a stop to obstructive discussion whenever the necessity arises, this extra session, and then they will stand before the country stronger than ever. The feeling aroused by the Madawaska

The stories told by that paper of the paction Upper St. John and St. Andrews. between the Government and M. Theriault,

and the terms on which M. Nadeau would give the Government his support, were then the mere coinage of a heated partisan brain. A guilty conscience needs no accuser, he thinks; for, says he, the Editor of the Telegraph is " so conscious of the falsity of the stories he has told concerning him, that, he has ceased to send his paper to him (M. N.) which he has taken for several years, and the subscription to which he has, always, paid in advance." This sounds conclusive;

for what editor of a daily paper anxious for an extended circulation would neglect a ready paying subscriber, unless he had some grave reason for so doing. M. Nadeau adds, "Fear nothing, Mon cher William, I shall never bring you to account for your calumnies against me. Send along your journal as usual. I shall not be offended at the puerilities with which it is filled." GEO. H. DAVIS, ESQ.,

Gladstone, Sunbury Co.,

DEAR SIR,—Having felt the benefit of your Quinine, Iron & Wine in my own case, I deem it my duty to give some testimonial to the public of its superior merits as an invigorating tonic. Last winter through overwork and ex posure in the woods, my system became pressure life. Physique is being undermined. We hear a great deal about the vile body, and many are encouraged by the phrase to transgress the laws of health. But nature quietly suppresses those who treat disrespectfully, one of her highest products, and leaves the world to be peopled by descendance of the world to be peopled by descendance or more applications to effect a strong pressure life. Physique is being undermined. Corns:—Take one-fourth cup of strong dragged," "My food don't digest," "I do not feel fit for anything." which we so often hear during the Spring and early Summer months, are conclusive evidence that the will be gone, and the corn can be picked out. If the corn is a very obstinate one, it may require two or more applications to effect a strengthen the organs of digestion, stimulate a lucky change I was induced to try a lucky chance I was induced to try the debilitated constitution. Hanington's your Quinine, Iron & Wine, and after Quinine Wine and Iron, and Tonic Dinner taking but a few bottles I found my buoyancy of spirits, vigor of mind, and give though somewhat advanced in years, I lasting strength to the whole system. Be- am as strong and vigorous as ever in my ware of imitations. See that you get "Han-life before. Under these circumstances I have no hesitation, and I take the greatest pleasure, in recommending your invaluable tonic to all who may be af-
