These Shifting Tops have no rival, as a glance at the cut will show for itself; it is so simple. t requires only one person to take it off or put it on, and when off no one would think a Top had een on, as no unsightly ends are sticking out. When the Top is on it is as firm as a rock. It can be put on any carriage in use. Persons ordering Buggies or Canopy Top Carriages should see that they have this Rail, as it will be greatly to their interest.

These Tops were awarded a Diploma at the Provincial Exhibition in October, 1880
