We will present to every new su scriber to the MARITIME FARMER who will pay his \$1 subscription in advance, and to all subscribers who have paid up to Sept. 1st, 1883, a copy of Dr. J. B. KENDAL'S "TREATISE ON THE HORSE AND HIS DISEASES." This book has had commended by horsemen, and ought to

The Exhibition.

The St. John Globe appears to be determined to do all in its power to injure the Exhibition, and for this purpose it has published a number of articles that do not con vey a correct statement of what has been one by those having the matter in hand.

Because the Secretary of the Board simply pointed out what appeared to him an irregularity in the proceedings of the committee appointed by the citizens of St. John, he was There never was a time when it abused in a manner that was not justified by was more to your interest to buy anything he had done. The Globe evidently felt this, and therefore made a number statements that were not correct, but calculeted to afford an opportunity for the Editor

> The course the Editor of the Globe ha long pursued has been one of uncompromising opposition and irritating criticism. He must have learned his policy of that notorious Irishman who not long after he had landed at New York, was asked on what side politics he was. Without a moment's hesi tation he exclaimed, "I am agin the Govern-

ment. The Editor of the Globe is not only agin the Government, local and general, but at our store than now. We have he is agin anything that looks like a demonan immense stock of elegant and stration of loyalty to the mother country, Sultan to throw off the masque and proclaim agm any movement to do honor to the founders of the Province, or to show to what a

Important interest still. The lumberman is constantly depleting the forests, and there is nothing to show for the natural wealth he ships away except the cash and goods

ANDULUSIANS.

In consequence of the position of matters, a meeting of the Board was held in St. John to confer with the citizen's committees. Everything at this meeting was of the most pleasant character. The committees stated that if anything was irregular in the manner of their appointment, it was from want of thought, not from any intention to usurp OVERCOATS, the prerogative of the Board, and they then desired to adopt any course that was considered best to attain the object they all wished to accomplish. They acknowledged that the Board was the proper body to manage the Exhibition, but as the members of the Board all resided at a distance from St. John and could not be in attendance as often as they were required, it was considered best for his blood, and sent into exile. in St. John. It was with a view of giving effect to the idea that they had fallen into the error referred to, but they believed that a way could be found out of the difficulty that would be satisfactory to all parties.

This way was found in the course adopted by the Board. The minutes of the meetings held by the people of St. John, and also of the committees appointed, were submitted Every Committee appointed in St. John was people. approved of by the Board, and every person mentioned on the Finance Committee was requested to act with the Board as a general committee of management. The Board neither took from or added to the committees by the Board, which we published. Where then can the Globe find authority for its frequent assertion that the people of St. John were shabbily treated, and their committees dismissed and treated with contempt? If the Globe had a little of that high honor it makes so much pretentions to, it would apologies for the ast four years and more. Dursing the main tax, and the change to a single tribunal of say seven trained lawyers, would much expedite business in the courts, and in short make justice more sure, speedy and dispersed through the territory to settle on the Globe had a little of that high honor it makes so much pretentions to, it would apologies for the last four years and more. Dursing the main tax, and the change to a single tribunal of say seven trained lawyers, would much expedite business in the courts, and in short make justice more sure, speedy and dispersed through the territory to settle on turry discusses the question, and those who wish to see what can be said on it, should procure the Magazine and read the article, "Is the Jury System a failure?"

In the main tax, and the change to a single tribunal of say seven trained lawyers, would much expedite business in the courts, and in short make justice more sure, speedy and chapter. A writer in the November "Century" discusses the question, and those who wish to see what can be said on it, should procure the Magazine and read the article, "Is the Jury System a failure?"

In the main tax, and the change to a single tribunal of say seven trained lawyers, would much expedite business in the courts, and in sufficient for the requirements of modern war. After a trial of an exceptionally severe kind, both in movement and attack, I can say emphatically that I never wish to have under my orders better infantry battalions than those whem I am proud to have commanded at Tel-el-Kebir."

In the main tax, and the change to a single tribunal of say seven trained lawyers, would much expedite business of the requirements of modern war. The Ship Railway.

We see by the Chignecto Post, that, Mr. Carnton Hutton, engineer for the London capitalists and contractors who are contemplating the construction of the Marine Railway across the Isthmus arrived last week in Amherst, and has since inspected several points on the proposed route in company with Mr. Ketchum. The surveys and borings are among experienced engineers, that to trans- attract and retain in the Dominion many of port ships over land, by railway, is quite feasible, but outside the profession there is some hesitation in believing that the Marine

Railway can be successfully carried out. But every new project has to encounter incredulity, opposition and ridicule. It tells powerfully in favor of the feasibility of the scheme, at any rate that moneyed and practical men are willing to take hold of it. Granting that, it is quite possible, to lift ships from one bay and transport them by rail, and or damage, it is held that a Marine railway machine grounded, and the other end conover the Chignecto Isthmus, is preferable to a canal, in as much firstly, that the cost of its construction will be a quarter less. The estimated cost of a canal was the Post says then be really a flexible electric wire, and, \$8,000,000, and the time of construction eight years. The accumulated interest on each year's expenditure would amount at the The above goods can be hap time of completion to \$4,000,000, and the is to cost the country only \$150,000 for twenty-five years. Again it is said that ships will be more expeditiously taken across the 1sthmus by the ship railway, than they could be tugged through the canal; that the ship railway will be in operation, much later in

the fall and earlier in the spring than could a canal; that the capacity for commerce of the ship railway, is practically unlimited, whereas in a canal only one vessel could pass use the Railway, whereas the capacity of the canal would be limited by its depths. Since the construction of a canal is out of present question it is more to the purpose, to be told in the first plateful the fifty guests rose like one question it is more to the purpose, to be told in the first plateful the fifty guests rose like one question it is more to the purpose, to be told in the first plateful the fifty guests rose like one pared to take all the corn they can bring to them. The St. Croix Courier appeared last week in a new dress, and is now a fine looking paper. It has now entered upon its eighteenth year. The Courier was started in 1865 by Mr. Maine, who purchased the type and presses of the St. Croix Herald, published in Calais, when the editor, Mr. J. S. Hay, deserted the "sanctum" for the field during the agony of the American civil war. Since then the Courser has gone ahead and absorbed less prosperous papers. In giving a history of the St. Stephen papers the editor says of the Courier that it is "the latest and best, It has stood for eighteen years, and will so continue. We shall maintain our consistency politically, as we have done in the past, and shall sustain the principles we have ever advocated. We believe that the present government of Canada is the best for the Domi- low.

A Word in Season.

The Chatham World lately spoke a word season to the farmers whom it reaches We have, more than once, endeavored to pursuade our farming friends to do exactly what the World's editor in the first sentences what the World's editor in the first sentences of his well-timed article suggests for the Major General John Winburn Laurie. consideration of his readers. We insert the article entire, as it expresses what we would like to say on the subject better than we could do ourselves; and we entirely agree in all he says as to the importance of the farming interest. We only make one emendation, 734,441 which will be perceived at a glance :-

Now that the crops have been nearly all gathered, and farmers have some long even- virtual government of the country by the ings on their hands, we should like to hear British farmer has succeeded better than his neighbors with one crop, and another with some dred. A few weeks ago the site of the other crop, and this is usually due to some plant on certain soils, and might do considerable good by making his discoveries known through the medium of so widely circulated a paper as the MARITIME FARMER. Notwithstanding the importance of our fisheries, and richer all the time and a lumbering community poorer. No one gets rich in the and they frequently carry their wealth to England and spend it there.
