of duty. All are returned save one, and and Mr. Campbell. ters relating to said Societies. There is the Association.

There is another matter to which your attention was called at the first meeting of the Board by my predecessor, and to which you then gave much consideration. I refer to the placing of a line of steamers to sail direct between St. John and Liverpool, which would not only tend to give stimulus to the young though successful enterprise Sold by druggists and dealers throughout the Maritime Provinces, and at wholesale by Brown exporting cattle, engaged in by the farmers of District No. 1, but would likewise encourage the districts in other portions of the Province to engage in cattle raising for exportation, and not only encourage the exportation of cattle and sheep, but would give life to every industry within our Province, the surplus of which our people could successfully export. I think every New Bruns wicker hailed it as a bright day in our is the best Inflamation allayer and Pain des- commercial history, when the "Ceda Grove" was placed on the route. But alas her fate, apart from the sad occurrence. What was to be the fond hope the bright prospects, the pride, and what

paid for a case it will not cure or would have given a stimulus to many of the industries of this Province, banished prains, Lumbago, Bronchitis, Burns, Toothache, in a moment, in a moment when with a successful stock farm stationed in our midst, where our agricultural men could procure the surplus stock, inferior to harmless and can be given according to direc- none of the like kind on this side of the Atlantic, and thereby successfully con pete with other portions of the Dominion. Ganong Brothers, at about one dollar some return for the food and care per dozen less than former prices. given them. It costs no more to feed and keep a flock of improved fowls than it does the common sorts. It is a waste of time and money to breed from poor stock, and it is the poorest economy to buy poor trash, though represented to be as good as the best. Those who turned their attention to breeding and keeping up the character and excellence of their fowl stock, have satisfied themselves of the importance of keeping good birds, and know the higher quality the better the results, and that they never will

It is somewhat perplexing on first visiting England and going among the flock masters there, to hear the different names applied to sheep of different ages. They call a ram lamb a tup, a heeder, a purlamb, a hog, a hogget; a hoggerel, a lamb hog, a tup hog, a teg. After being shorn he is called a shearling, a shear hog, a diamond or dinmont ram or tup. After the second shearling he is a two-shear ram or tup, and on the third year a three-shear ram, etc. be, in our genepation at least, a drug The female is a ewe or gimmer lamb until weaned, and then a gimmer hog or ewe hog, or teg, or sheeder ewe. After being shorn she is colled a shear-One of the most popular medicines | iug ewe or gimmer, a theave or double
