choose between two parties. They should bear some prominent facts in mind. The Liberal-Conservative party of which Sir J. A. The Liberal or Grit party of which Alexander McKenzie was the head, until he was thrust down to make was for Mr. Blake, can only claim four years administration. The eleven years of Liberal-Conservative rule have been years of action development and progress. The four years of Liberal rule were years of depression, financial difficulty and industrial inaction. What the Dominion is to-day, (and all true Canadians must be proud of the position it

The Grit leaders and organs denounce the McDonald government for their extravagance. They say that it has gone far to ruin the country. No one in their cool senses believes anything of the kind.
