FREDERICTON.

Branch Store-St. Mary's Ferry

November 14th, 1883,

(From the Underwriter.) Boot and Shoe Emporium

If you are merely a casual observer of the stores on Queen Street, we dicatory services on Sunday last. It was would draw your attention particularly to the establishment of Mr. A. Lottimer, whose place of business is nearly opposite the Normal School. He has been in business in this city since May 1859, covering a period of over 24 years, and he still has the reputation of keeping the most fashionable Shoe Store in the City. His windows always present a most facinating display of Boots, Shoes, Slippers, &c. We made a visit latehas undoubtedly the largest assort-ment of Boots and Shoes in the City ducted by Rev. Henry Cross, of St. John, ment of Boots and Shoes in the City His store is literally packed with articles in this line, and the second story is also almost impassable with cases filled with nearly every variety of Boots and Shoes for Fall and Winter wear. Besides doing a large retail trade that gentleman does also an extensive wholesale business which he is able to carry on successfully from purchasing his stock direct from the manufacturers.

We would recommend persons buying at retail or in wholesale lots to call at his store and look over the stock personally. The clerks are alway courteous and obliging and you will feel satisfied that this is the best place to expend your money for anything in the Boot and Shoe line.

train, or commanding a steamship.

eth not the foot of sheep or cow, and we have an instance to this point. A few days ago, a man arrived in this city with certificates for bounty on sixteen bears, which he had captured in the far off woods of Cain's River one of the branches of the South West Miramichi. What harm could these animals have done at such a distance from civilization. It is quite probable that not one of them had they been permitted to live, would have ever seen a sheep, much less have the opportunity of killing one. The Government had rather expend the two thousand dollars they rever seen a sheep, much less have the opportunity of killing one. The Government had rather expend the two thousand dollars the protection of our valuable forests from fire.

The will would be cut eff from the evils of temperature combined. Home, he said, is the fountain-head of all that is purposes of defence, the wall was left purposes of defence
