We are sure we but echo the sentiment of a majority of the inhabitants of St. Andrews by wishing him the most unbounded success in the path of life he has chosen to pursue.—*Bay Pilot 20th inst.*

A sad affair occurred in the Parish of Southesk, Northumberland County, on the 15th inst., when John Hubbard was struck so violently with a heavy stick by Wm. Mullin, that after lingering until Sunday evening he died from the effects of the blow. It appears that Hubbard got liquor at Mullin's about six or seven o'clock and about eleven went back for more, but was refused or put off, Mullin being angry at being routed out of bed by Hubbard. On leaving the door Hubbard took up Mullin's dog and carried him to the high road, where the dog got fighting, which brought Mullin out to protect his dog. Words passed between them and Mullin made a blow at Hubbard without hitting him. Hubbard followed him down the road, when he received the blow which killed him. Mullin surrendered himself to the authorities, and has been committed for trial in the Supreme Court.

There is strong probability of a great falling off in the lumber cut next season, in comparison with the last. On the upper St. John, Hon. Mr. Randolph will cut about 10,000,000 feet, a reduction of about 30 per cent on last years yield, which he is understood to have sold at very good figures. Robert Connors, Wm. H. Murray's main man, who usually operates to the extent of from 15,000,000 feet to 20,000,000 and who last season only cut 8,000,000 feet, states that he will not realize more than half that amount this year. Last winter between 35,000,000 and 40,000,000 feet of spruce were harvested on the Upper St. John and 65,000,000 on the Aroostook. Mr. Connors states that not more than 50 per cent. of these figures will be realized the coming season. Mr. William Richards believes that not more than 50,000,000 feet of logs will be harvested on the South West Miramichi this season, which is about 60 per cent. of an average yield. It is reported on good authority that Mr. Gibson will not operate to more than two thirds of his operations of last year, or about 16,000,000 feet. Hon. Thos. F. Gillespie says that 40,000,000 feet of deals are awaiting shipment on the North Shore, and that operations will probably be light this season.

The following appointments are gazetted:

Woodstock Field Battery of Artillery.—To be Major, from 31st of May, 1883: Captain Frederick Herbert Jenkins Dibblee, G. S. To be Captain, from 1st. June, 1883: 1st Lieutenant Thomas Lynch, G. S. vice Dibblee, promoted.

71st "York" Battalion of Infantry.—To be Major: Captain and Brevet Major Samuel L. Wilkinson, formerly of H. M's. 62nd Foot.

No 3 Company Stanley. To be Captain: Lieutenant William Thomas Howe, V. B., from the Adjutancy, vice Wilkinson, promoted.

The cricket Match at Woodstock, on Friday and Saturday, between the Fredericton and Woodstock elevens, although not concluded for want of time, resulted in an easy victory for the former team. Fredericton went first to bat, and scored 112 runs, 42 of which were contributed by Mr. Slason Thompson. The Woodstock eleven were disposed of for 33 runs. In the second innings, Fredericton scored 135 runs, Mr. Thompson again putting together a fine score, 67 not out—carrying his bat through the match. When time was called, Woodstock had reached 34 runs with the loss of two wickets. Mr. Sharkey of the Fredericton team also batted finely in both innings, scoring nine not out in the first, and 21 in the second. The umpires were Mr. C. Harrison, St. John, for Woodstock, and Mr. H, G. Fenety for Fredericton; scorers, Mr. H. E. Dibble and Mr. W. B. Coulthard. The visiting eleven were entertained to a splendidly gotten up dinner at the Gibson House, Friday evening, by the Woodstock Club, which has abundant cricketing material in its membership for a first-class team.

At St. John, a few days ago, Mr. William Richards, of Nashwaak, drew $1500 from one of the city banks. The money was wrapped up in paper and placed in his valise by Mr. Richards. When he got to the Royal Hotel, Mr. R. laid the valise behind the counter. Having occasion to remove some things from it, Mr. Richards picked up the money package and placed it on a shelf alongside him. On the same shelf was a package containing tea, of about the same size and shape as the money, bearing the name of a city gentleman. Instead of putting in the money package, Mr. Richards put in the package of tea. The next morning he went up north and before his return he discovered that his money was gone. He believed that he had been robbed, and the package of tea substituted to deceive him. On reaching St. John the following day Mr. Richards laid the case before the Chief of Police, and that gentleman submitted the matter to Sergt. Weatherhead. In the meantime, the clerk in the Royal Hotel, Mr. Henry A. Doherty, hearing of Mr. Richards's loss, instituted a search under the counter, among the parcels stowed there, and at once laid his hand on the missing package, and the money was returned to Mr. Richards.

Camp Sussex

The volunteers including the 71st York Batt., the 67th Batt., and four troops of the King's County Cavalry, forming the Brigade Camp at Sussex, commenced their annual drill yesterday. The *Telegraph* says:—"The seventy-first arrived in camp at 7.30 p. m., Monday, after a tedious journey, having left their homes very early that morning and occupying over three hours on the journey from Rothesay, They numbered five companies and two more arrived with the Sixty-seventh Battalion. The 71st looked well as they marched in headed by their drums and fifes and the band of the 8th Cavalry; immediately after getting in, tea was served, all the men appearing to have excellent appetites. Major-General Luard is expected to arrive in camp to-morrow week to inspect the corps.

As Others See Us.

A tourist writing to the Cambridge Mass. *Tribune*, says:—"Have you ever been to Fredericton? If not, then go! If you have why, go again! If you have time, of course you will go on the steamer both ways. If you are pressed for time, you can take the cars at Carleton, just across the river from St. John at half past four in the afternoon and arrive at Fredericton at quarter of eight, then take the sail down the river the next morning. The Queen Hotel is near the boat landing and commands a fine view of the river and opposite shore. The accommodations are first-class and the weary traveller is made at once to feel at home. Fredericton is a very pretty little town—and not so very little either—eighty-five miles (by river) from St. John. It is one of those quiet, staid old towns, where ono can indulge in *dolce far niente* to his heart's content; is quite flat and resembles Cambridge somewhat in this respect as well as in its shady streets and air of general stagnation; although in Fredericton they are stirring somewhat in the matter of improvements. The government building is an imposing structure of stone and is near the cathedral. As I was walking slowly by the latter edifice noting its massive proportions and beautiful situation, a laborer, on his way to his daily task, stopped, and pointing beyond the cathedral said, "Go around that street, sir, and you'll see a most beautiful garden." Of course I went and saw the garden, and it is, indeed, a beautiful garden; but there are many in Cambridge as beautiful. Though I should have been glad to linger on the borders of this beautiful enclosure, my time would not permit, and I hastened on to view that larger garden which, in the wildness of its beauty, has lain for ages under the care of the Supreme Architect of the universe, to be an inspiration and delight to countless multitudes through the never ending years. I wish I had words to describe it, though faintly; but it is to beautiful for words; it holds one spell-bound. No poet, however sweetly he may sing, can tell its beauty to the ear, no painter, be his touch genius itself, can picture it to the eye or transfer to the cold canvas the glowing, glorious beauty of this masterpiece of the creation; it must be seen and felt."

J. H. Earl, West Shefford, P. Q., writes: "I have been troubled with liver complaint for several years, and have tried different medicines with little or no benefit, until I tried Dr. Thomas' Eclectric Oil, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horse in cases of cuts, wounds, &c., and I think it equally as good for horse as or man."

A DASTARDLY CRIME.

Outraged by a Tramp.

The Victim a twelve-year-old Child.

The Culprit Confesses his Guilt and is Lodged in Fredericton Jail.

Details of the Villainous Act

The quiet village of St. Croix, in the Parish of Dumfries, in this County, just opposite Vanceboro, was thrown into a state of excitement Monday afternoon, when it became known that a terrible crime had been committed but a short distance from that place. The circumstances and details of the affair are as follows:—

About 3 o'clock on Monday afternoon, Ellen McLaughlan, a twelve-year-old daughter of Onslow McLaughlan, who lives on the Woodstock Road, in the Parish of Prince William, three and a half miles from St. Croix, was returning from that village where she had been making some purchases, and in a thickly wooded district over a mile from any human habitation, she met a tramp who gives his name as Alfred Johnston of East Boston. On approaching the child, he made indecent proposals to her, and failing to secure his object he caught hold of her and

DRAGGED HER INTO THE FOREST,

where notwithstanding her struggles and unavailing cry for assistance ontraged her person, first taking a stout cord from his pocket and securely binding his now unconscious victim to a tree, passing the cord several times around her neck. Then he left her for aught he knew, to die.

But fortunately four men Henry Coulter, Samuel Orr, James Coulter and Willie Coulter with their teams happened to meet on the road near the spot where the crime was committed, and as they stopped to talk for a moment, they heard a cry for assistence proceeding from the wood. Rushing to the scene they found the victim lying on her back bound to a tree and scarcely conscious. She was put upon James Coulter's wagon and taken to John McGoldrick's house St. Croix, and Dr. Beatty of Vanceboro summoned to attend her. With his aid, she speedily regained consciousness and recited the story of the crime. The news soon spread around the village and throughout Vanceboro, and the people became worked in a mad state of excitement.

In the meantime a suspicious character had passed through St. Croix and crossed the bridge to Vanceboro, and upon him the crime was at once laid. A warrant for the stranger's apprehension was issued by Justice A. W. Sears of St. Croix, and a *posse* of Constables headed by P. W. Sears, searched vigorously in every direction for the supposed culprit. It was dusk when their efforts were rewarded by the discovery of Johnston, carefully

STOWED AWAY IN A CATTLE CAR

attached to the Bangor Freight train, which would have departed from Vanceboro ten minutes later. He was immediately taken into custody, and conveyed to where his victim was, which was speedily surrounded by an infuriated crowd of men, women and children. The little girl at once recognized the prisoner, and in his presence, recoiled from him with cries of distress, while the father of the victim when his child recognized the scoundrel, made a dash at him and would have killed him on the spot but for the protection of the Constables. Outside the building, the excitement reached a frenzy, and there were loud threatenings of lynching Johnston. For a time it was feared the house would be pulled down over his head, but the constables succeeded in getting out of the house and conveying him to Justice Sears' residence, where he was securely guarded till yesterday morning, when on being brought before the Magistrate

HE CONFESSED HIS GUILT

and was remanded to the county jail in this city, to await his trial in the County court, which opens here on Tuesday, the 2nd day of October.

At the examination before the Justice, the victim testified as follows: "I was returning from St. Croix by the turnpike road, and when about one hundred yards from the clearing at Varney's corner, I met the prisoner. He told me to go into the woods with him and I refused. He said if I did not do as he wished, he would beat me with a stick that he held in his hand. I again refused, and grasping me in his arms he dragged me into the woods by force. He then told me to lie down or he would have my life. I struggled with him and he kicked me and taking out a rope he tied it around my neck, lashing me down to the ground and accomplished his object. I cannot tell how long it was before he left me as he had rendered me unconscious." The men already mentioned, also testified to the fact of finding the child in the position described, and Dr. Beatty gave evidence to the effect that she had been badly used, that her face was swollen and her eyes blackened, and that on examining her person, he found evidences that she

HAD BEEN OUTRAGED.

William Coulter testified that the prisoner had made a confession of the crime to him.

On this evidence the prisoner was sent up for trial, and in charge of constable P. W. Sears, he was brought to this city by the western train yesterday, and lodged in jail.

The child is in a weak condi tion, but will recover.

A representative of the Farmer had an interview with the prisoner in the jail this morning. He is a slight youth, rather prepossessing than otherwise in appearance, smooth faced and small sized, not weighing over 112 lbs. He says he is an orphan, and that he has been working at Caribou since January last. When questioned if he regretted committing the crime, he hung his head and answered "yes." He evidently does not rea lize the enormity of his offence.

A Life Worth Living.

Emerson says, "the truest test of civilization is not the census, nor the size of cities, nor the crops, but the kind of men the country turns out." Now the kind of men the country turns out depends pretty much upon his physical condition, or what use to the world would a race of invalids prove? Such people have no individual independence, and their usefullness and achievements—if any—are of the most meagre and ordinary character when compared with those of the hale, hearty man who takes the world as he finds it, makes the most of it, and leaves it the better for his having passed through it. I remember asking one such how it was he appeared to enjoy such an imunity from disease during especially sickly seasons. His reply came unhesitatingly: "Because I pay prompt attention to the premonitary symptoms of disease, and thus baffle continued illness." "But" how is this effected so readily," I asked, "when you so rarely have recourse to the physicians?" "Well," he replied reflectively, some years ago, I learned that men and women could in no small degree, become their own physician through the medium of a book—Humphreys' Homœpathic Mentor, or Family Advisor—the gift of a friend. After a careful reading I came to the conclusion that it was the most practical volume I had looked into for years, and resolved to test the medicines, or Specifics, it advocated for family use. I ordered a family case, also a Veterinary one for the stables, and since then have become, with splendid results, not only my own physician, but the "friend in need," to many around me—there is so much in Homœpathy.

Extracts from a Letter from C. H. S. Cronkhite, Esq.

Canterbury Station, York Co., N. B.,
October 10th, 1876.

Mr. J. H. Robinson,

Dear Sir,—In reply to your letter of enquiry, I would say that your *Phosphorized Emulsion of Cod Liver Oil with Lacto-Phosphate of Lime* is the best preparation of the kind I have ever seen or taken.

I was ordered by my physician to take it, and commenced about the last of August, and since that time I have felt a different man, and also look differently, and all for the better, as the doctor can testify.

I was unable in the summer to walk any distance without much fatigue. I can now take my gun and *travel all day and feel first-rate at night, and eat as much as any lumber man*. Have not bled any since I took your preparation, and can now inflate my lungs, without feeling any soreness, and I think I can inflate them up to full measurement, same as before I was sick, have also gained in flesh, my weight in the summer was 173 lbs., and now it is nearly 190 lbs., which is pretty well up to my former weight.

The foregoing is a correct statement which I am prepared to swear to, and I hereby authorize you to give it publicity in my name.

I am, dear sir, yours truly,
(Signed) C. H. S. CRONKHITE.

We, the undersigned, hereby consent to have our names published as witnesses to the effects of *Robinson's Phosphorized Emulsion* on the person of Mr. Cronkhite, and do as ert that the foregoing statement is correct in every particular.

The Thin Cannot Gain in Weight if they are troubled with dyspepsia, because the food is not converted into the due portion of nourishing blood which alone can furnish the elements of flesh. But there is no reason, when this wearing, attenuating disease is conquered by Northrop & Lyman's Vegetable Discovery, why there should not be an appreciable gain in weight, which indeed is usually the case. It is a peerless remedy also for Constipation, Liver Complaint, Kidney troubles, and roots out all impurities from the blood. Sold John M. Wiley.

MONDAY, the 1st,

UNTIL

THURSDAY EVENING, the 11th Oct.

The Live Stock may be removed from the yards on Friday evening, the 5th.

Exhibits will be received from all parts of the Dominion on equal terms.

Entries will close on the 15th inst., after which none can be received except by special arrangements.

No Charge is made for entering Exhibits.

Space will be given free in the Buildings and Stalls in the yard.

Hay, Straw and Water for Stock will be supplied free.

The necessary attendants on Exhibits in the building, or Stock in the yard will be admitted free.

Exhibitors can obtain tickets of admission during the Exhibition for One Dollar,

Exhibitors sending Goods or Stock to the Exhibition from any part of the Dominion will pay the freight to St. John. On their arrival at the Exhibition and on presentation of freight bill, one-half the amount so paid will be refunded to the exhibitor and a pass given for return free

A Passenger Station is within a few yards of the main building.

A Freight Track enters the building, thus saving cartage.

The Cattle Station is in the immediate vicinity of the yard where ample room is provided for handling cattle free from all annoyances.

Heavy Goods should be forwarded several days before the opening of the Exhibition to afford time for placing them.

Lighter Articles will be received up to Monday morning, the 1st October.

While it is desirable that all exhibits should be in place at the opening on Monday afternoon those unavoidably detained, and perishable articles, will be received on Tuesday until 10 a. m,

Live Stock of all kind will be received up to 10 o'clock Tuesday morning.

LIBERAL ARRANGEMENTS

have been made with all the railway and steamboat lines for carrying passengers, giving return tickets for one first-class fare. This privilege will apply for some time before and after the close of the Exhibition; the exact number of days will be named hereafter.

The Intercolonial, New Brunswick, Maine Central, and Grand Trunk Railways, and International Steamships will bring passengers from the utmost limits of Ontario, and all points this side of, and including Boston, on the above terms.

Exhibitors should apply at the station from which they intend to ship goods or stock some days previous for the necessary cars. This should be attended to to prevent disappointment and late shipments.

A committee to provide accommodation for visitors has been appointed. Strangers wishing information as to lodgings may apply at the office of the Secretary, C. S. Melick, at present in the City Building, afterwards at the Exhibitirn Building. It is the intention of the Committee to provide ample accommodation for all visitors.

One of the greatest attractions of the Exhibition will be the MODEL WORKING DAIRY, which Messrs. Manchester, Robertson & Allison are bringing from England. Prof. Sheldon will be in charge of this exhibit and deliver a course of Lectures during the Exhibition.

It is intended to have a **FINE DISPLAY OF FIREWORKS** on one or two evenings of each week, also one or more **BALOON ASCENSIONS.** The baloon is said to be one of the finest in the world.

There will also be a **Procession of the Trades.**

BANDS OF MUSIC will be in attendance each day.

Their will be Special Sports and Entertainments during the continuance of the Exhibition.

ADMISSION TICKETS TWENTY-FIVE CENTS, admitting the holder to all the buildings and yard,

HON. DAVID McLELLAN, President.
S. JONES, Mayor of St. John, Chairman.
JULIUS L. INCHES, Secretary.

Rev. Father Wilds' EXPERIENCE.

The Rev. Z. P. Wilds, well-known city missionary in New York, and brother of the late eminent Judge Wilds, of the Massachusetts Supreme Court, writes as follows:

"78 E. 54th St., New York, May 16, 1882.
Messrs. J. C. Ayer & Co., Gentlemen:
Last winter I was troubled with a most uncomfortable itching humor affecting more especially my limbs, which itched so intolerably at night, and burned so intensely, that I could scarcely bear any clothing over them. I was also a sufferer from a severe catarrh and catarrhal cough; my appetite was poor, and my system a good deal run down. Knowing the value of Ayer's Sarsaparilla, by observation of many other cases, and from personal use in former years, I began taking it for the above-named disorders. My appetite improved almost from the first dose. After a short time the fever and itching were allayed, and all signs of irritation of the skin disappeared. My catarrh and cough were also cured by the same means, and my general health greatly improved, until it is now excellent. I feel a hundred per cent stronger, and I attribute these results to the use of the Sarsaparilla, which I recommend with all confidence as the best blood medicine ever devised. I took it in small doses three times a day, and used, in all, less than two bottles. I place these facts at your service, hoping their publication may do good.
Yours respectfully, Z. P. Wilds."

The above instance is but one of the many constantly coming to our notice, which prove the perfect adaptability of Ayer's Sarsaparilla to the cure of all diseases arising from impure or impoverished blood, and a weakened vitality.

Ayer's Sarsaparilla

cleanses, enriches, and strengthens the blood, stimulates the action of the stomach and bowels, and thereby enables the system to resist and overcome the attacks of all *Scrofulous Diseases, Eruptions of the Skin, Rheumatism, Catarrh, General Debility*, and all disorders resulting from poor or corrupted blood and a low state of the system.

These Shifting Tops have no rival, as a glance at the cut will show for itself; it is so simple, it requires only one person to take it off or put it on, and when off no one would think a Top had been on, as no unsightly ends are sticking out. When the Top is on it is as firm as a rock. It can be put on any carriage in use. Persons ordering Buggies or Canopy Top Carriages should see that they have this Rail, as it will be greatly to their interest.

These Tops were awarded a Diploma at the Provincial Exhibition in October, 1880

SOAP! SOAP!

Frank Siddell's Soap.

USE winter or summer, but don't scald or boil any of your clothing, no matter how dirty or stained. Brightens colored goods. Goes farther than other soap, and cheaper for a poor family for scrubbing and washing dishes. Softens woolen goods. A large wash done in a couple of hours. No clothes mending. No fingers rubbed sore. The saving in fuel alone more than pays for the soap. Clean, sweet, and white clothes without boiling or scalding. Just think. No heavy wash boiler to lift about. No steam to spoil wall paper or furniture. No nasty, filthy smell in the house.

Where water is scarce, or has to be carried far, remember that the Frank Siddall's way of washing only takes a few buckets of water for a large wash.

This is no humbug, but a reliable article. Try it and you will use no other kind.
