exciting much interest in various towns of the Province at the present moment, but in St. Stephen, the contest between the friends and foes of that measure grows the warmest. On the 6th inst., at a meeting of the Town Council, a resolution authorizing the expenditure of town funds, and instructing the police officers to look up and presecute offenders, was passed, the authority for the Council's action being based on a written opinion submitted by Mr. G. S. Grimmer, Q. C. A few evenings later the liquor dealers and their supporters met and took issue with the Council, after consultation with Mr. M. Mc-Monagle, Barrister, passing a resolution calling upon the Council to rescind its resolution and threatening in case of refusal to place an injunction on the town authorities, and to take steps to quash the town assessment. There is therefore now the prospect of a square fight, and the public will look on with interest to its result

Some of the families whose homes were so suddenly darkened, lost over three children. One man and wife pushed their way into the hall in which lay the bodies of the victims, and without betraying any emotion, began to scan the faces of the dead. Recognizing the face of one of his children, the father pointing with his finger exclaimed, "That's one," passing on again he recognized another, and then a third. Staggering in a fit of agony

he cried, "My God, all my family gone!" and overwhelmed with grief, sank to the floor. In some homes there are five children dead, and one Sunday School loses thirty scholars by the catastrophe.
