The Stock Farm.

the luxury of a new spring bonnet, for one The Local Government and Board of Agriculture, separated last week without taking any decided action regarding the selection of a Stock Farm. The Government however, we understand, have placed the entire man- of those which bring her into contact with agement of the Farm in the hands of the the world. Our idea of the gentler sex, is, that its members naturally seek retirement, Board, who have named Hon. D. McLellan, and leave the rougher duties of life to be their President, and Messrs. Anderson and performed by men. They were not fashioned Fairweather, for the duty. A joint commitand made to meet the rude rebuffs of the tee of the Government and Board, consisting world, but to be cared for and protected in of Hon. Messrs. Harrison and Turner and their own houses by man, and every woman Messrs. Brown and Anderson, were appoint- ought to have such a protector. Most men admire a plain simple domesticated woman, ed to inspect and report upon a suitable locacultured certainly, but cultured in simplicity to home duties, and the accomplishments of tion for the Farm, and its final location will the social circle. Most men we say, would be settled by the united vote of both bodies. This committee are to meet here on the 24th prefer these in women, to even the power to stir assemblies by eloquence, or startle the of June, to carry out their instructions. world by discovery, and what men prefer, should rule, for was not man created ruler,

It having been settled then, that the location of the Stock Farm is to be changed, the wisdom of which some will question, we the subtle influences of a woman. desire to put forward the claims of York County for the Institution, and when properly understood, our case will present itself as a strong one. The first necessity of the farm, certainly is its adaptability for the purpose, its facility for sustaining the valuable stock in the possession of the Province, and Magistrate of Bathurst. Doucet, it will be extending the usefulness of that stock. Then the question of position, as regards means of trate on two distinct charges (1) for having shipment and accessibility, is a very important one, which cannot be overlooked. These therefrom, addressed to Peter J. Leslie, and requisites then, are admirably met by the (2) for having at Little Shippegan, taken, "Murray Farm," at Spring Hill, in this kept, and detained a fourth letter belonging County, and when the committee inspect that to the same party. It appears that the try are studied in this important matter. took this method of satisfying his claim. About most necessary to the life of the child at all More than 100 tons of human hair are

annually bought and sold. Four ounces i an average clipping from a human head, so that 100 tons represent the product of from 800,000 to 1,000,000 heads. In Europe the heads of female criminals are shorn, and they supply a large market, but the greater part is brought by travelling peddlers. Between the ages of 15 and 40 a woman can grow about seven crops of hair. The anxiety that many parents and teachers

perament, which with high living, too greasy food, indigestion from inactive liver, is the frequent cause. The remark of their powers is almost certain to sacisfice the very object at which they aim. The precocious little boy or girl usually turns out to be a little stupid, inactive man.

FAILING!

That is what a great many people are doing. They don't know just what is the matter, but they have a combination of pains and aches, and each month they grow worse.

The only sure remedy yet found, is Davis' Quinine Iron and Wine, and this by rapid and thorough assimilation with the blood, purifies contain their celebrated Busk Protector and Patent Lock Clasp, which prevents the Steels from unhooking while being worn.

and enriches it, and rich, strong blood flowing to every part of the system repairs the wasted tissues, drives out disease and gives health and strength.

This is why Davis' Quinine, Iron and Wine will cure Dispepsia, Indigestion, Liver Con, Malaria, Intermittent Fevers, General Debility, etc. etc.

BURTON, Sun. Co., July 17, 1883 GEO. H. DAVIS:

DEAR SIR,—I was a great sufferer from Dyspepsia, and for several weeks could eat nothing, and was growing weaker every day. I tried Davis' Quinine, Iron and Wine, and Park's and Moncton Cotton appetite and am getting stronger. am happy to say I now have a good Yours, .

> JOSEPH McCAWLEY Davis' Quinine Iron and Wine is not a drink and does not contain

whiskey. It is a simple preparation of Iron and Quinine that causes no injurious effects. Get the genuine. Ask for Davis' and take no other, Price 50 cents. Prepared only by
