#### Mr. Gibson's Protest,

The condemnation, which men of all shades of political feeling, have not hesitated to pronounce against the course Mr. Gibson and other lights of the Grit party, are pursuing in this constituency towards Mr. Temple, is creditable to their sense of honor and fair play. The action these parties have chosen to take, and the full responsibility of which they must assume, has met with nothing but condemnation throughout the length and breadth of this city and county. Elsewhere, we publish an article from the Chatham Advance, a newspaper hostile to Mr. Temple and his party, but which sees in the protest weighed before adopting the course he proposes to procure. He evidently has not taken into account the expose of his own methods in conducting political campaigns, that must be made, if the election petition ever sees a court of law. Mr. Gibson indeed is a nice individual to purge a constituency of bribery and corruption. We fancy his posing as a purist before the electors of York, must cause a unanimous smile, if we may be allowed the expression. But we say, let Mr. Gibson proceed with his protest, and we can promise him, that there shall be a most complete and convincing illustration before the court, of the manner in which Mr. Alexander Gibson and his "brawling brood of bribers" have attempted to corrupt this constituency.
