Where is the "Reaction?"

A telegram to the FARMER from Charlottetown this morning, brings the gratifying news, that Dr. Jenkins, the Government candidate to fill the vacancy in Queen's County representation in the House of Commons, was elected vesterday by a good majority over Mr. Welsh the Grit candidate. The returns have not all been received, but it is believed that his majority will be about one hundred.

## Personal Scandal in American Politics.

If a man desires to have his personal and political sins raked up, and served in the press to the all too eager readers, he ought to run for office in the United States. The present Presidential campaign perhaps, serves dead. The terrors of starvation faced the as the best illustration of malignity and abuse ever witnessed in the Republic. Both parthat they might live! Blood curdling as it ties are equally guilty of its use, and each has seemed to outdo the other in raking up they committed an act justifiable and even scandals; which if they ever existed, were long since forgotten. Governor Cleveland had scarcely received the nomination of the Democrats for the Presidency, before a Buffalo paper published the alleged facts of scandal in which Cleveland and a certain widow of that city had been involved several years ago. He was accused of debauchery, adultery, drunkeness and libertinism in worst form. When asked by his friends what reply he had to make to these accusations, Cleveland replied, " Let them tell the truth," and his enemies have been telling something, whether it is the truth or no ever since with a vehemence that is unparalleled. From what has been published by newspapers friendly to Cleveland, it would appear that he has been guilty of indiscretions, but not of so serious a character, as his enemies represent. His great offence stated as being improper intimacy with the widow in question, who afterwards took to drink, illtreated her child, which was taken from her by Cleveland's order and placed in an Orphan Asylum, while its mother was taken to an Inebriate Asylum. These facts nexed to the Dominion of Canada has called were sufficient to found a story of seduction attention to the resources and other interestkidnapping and brutality, which is now be-

not without effect. Nor has Mr. Blaine, the Republican candidate escaped. When Cleveland's private record was being so eagerly scanned, and scandal evolved, where possible or otherwise, Cleveland's friends ransacked Blaine's career, and an Indianapolis paper a few days ago published a sensational article in which statements were made involving the honor of Mrs. Blaine and her family. Mr. Blaine who was at Bar Harbor, Maine, when he heard of the article, at once telegraphed to a prominent lawyer in Indianapolis, to bring an action for published the article. Blaine's denial is indignant and complete, and in the despatch he dignant and complete, and in the despatch he said :- "I have this moment received the North America at least, under the authority had an expensive fly named after her. atrocious libel of the Indianapolis Sentinel It is utterly and abominably false in every statement and every implication. Political slanders I do not stop to notice, but this editor assails the honor of my wife and my children. I desire you without an hour's delay to employ a proper Attorney and have the responsible publishers of the Sentinel sued for libel in the U.S. District Court of Indiana. It is my only remedy. I am sure honorable Democrats alike with honorable Republicans will justify me in defending the honor of my family if need be with my life."

The scandal against Cleveland has been published and reiterated in every Republican paper and from every Republican platform in the United States probably, but we have and trickery, the incarnation of a great crime, Quebec.
