Mornings, at 6 A. M., Monday, Wednesday, and Friday Mornings, at 8 A. M.

> HARRY CREED. Agent. Office Gill's Building, Phanix Square. Fredericton, May 7. GEO. HATT & SONS.

DR. G. W. SMITH CLAIRVOYANT PHYSICIAN! authorized by the Medical Act of New Brunswick to practice in this Province, and who has resided at the QUEEN HOTEL for the last

three years, may now be consulted at the COM-MERCIAL HOTEL, Fredericton, either personally or by a lock of hair. Hair may be sent from any distance by letter, and should be cut close to the head and not handled if possible by any person but the patient. His examin-ations are made whilst in Trance, and entirely unconscious of everything which takes place unconscious of everything which takes place unless told afterwards by the parties themselves or his amanuensis. Some of his most successful cases were throughout, treated by a lock of hair; in some instances sent from Nova Scotia and from distant parts of this Province. His description of the physical condition of the patient from a lock of hair is very wonderful, this too, without the slightest knowledge of the party. The Doctor especially prefers that nothing should be said to him of any patient's ailments before examination. His success in several cases in this city which baffled the best Physicians, can be attested to by parties relieved under his treatment. Dr. Smith is a native of this Province and a descendant of one

W. H. VANWART'S. Grindstones,

vulsions would probably ensued.

I have been accustomed to hear the School Law, as it was, held up as something greatly to be admired, and with a very few exceptions, all the teachers at their Institutes, endorsed the whole, unqualifiedly. Of course, I do not forget that much adverse criticism was had on the introduction of the "Course of Instruction," and the "R. System," but in this discussion the teachers aimed rather at modifications than any radical changes in either the one or the other, and changes corresponding to their wishes were made. I may be mistaken, but I think the present Chief Superintendent arranged the Course of Instruction. It was tried and teachers and Inspectors were loud in its praise. In my humble opinion it deserved to be well received notwithstanding the multiciplicity of subjects embraced in it. In graded schools at least, teachers found little to the

difficulty in fairly covering each standard in the given time. I now appeal to every in-telligent teacher in the Province, for his candid opinion as to the results of his lessons in Natural Science, and here I mean by Natural there. Science, the subjects in the course under the head of Plant Life, Animal Life, Chemistry, and Minerals. These sound very formidable indeed, but in the very elementary form required in the different standards, they have awakened a thoughtfulness in the minds of the city yesterday. pupils of great educative value. I only mention this because changes are to be made,

may be expected to take a deep interest, viz., Reduction of Salaries. I will not argue this. The ne most contemptible attempt at a show of economy ever attempted in this country. When the disastrous fire occurred in St. John in Frank Cerbett, of Fredericton, so the papers brutal in the disastrous fire occurred in St. John in Frank Cerbett, of Fredericton, so the papers 1877, and that noble and generous city was say, has been sent to jail, at Bangor for May, I proceeded to St. Mary's and Gibson, frightened on the entrance of the engineer, in the throes of financial distress, the Trus- thirty days, for raising a disturbance in a ascertained all the particulars, and inter- jumped into the trough to get out of the tees said to the teachers, "We must ask you boarding house. if you remain, to submit to a large reduction The St. John of salaries;" and the teachers said "reduce Halifax Garrison Club at St. John, Friday was prevented from watching the trial, but tire. our salaries. We understand the situation, when you get able give us more." Did the Trustees, that is indirectly the people, of St.

John forget them when a gleam of prosperity shone over the city? No! To-day, as a late Dr. Gregory, is home visiting his friends.

In the discharge necessary to spen whole, they are the best paid teachers in the Maritime Provinces. All honor to St. John survey into British Columbia. for its able and efficient body of teachers.

a large amount went to raise the condition of show of retrenchment at the expense of the poor teachers of the Province. Why not include the officials in all the public departments? Why not the College Staff, Chief Superintendent and Staff? Why not Normal School and Staff? Why not Normal School and Staff? Ought the Government to do so? Certainly not. But how much less should any reduction be made in the salaries of teachers receiving on an avernment \$200 a year many of them far character. age, perhaps, \$300 a year, many of them far character. less. But we have given, say the advocates, Drs. Co them up at a Government allowance of, I from Capt. Tabor's tongue. The operation think, \$200 each, that is \$50 in advance of was painful, but it is hoped the Capt. will what they have at present. And then the Superior School must take in free, any pupils from the outlying districts. Under the Old
