Politics in Nova Scotia.

Mr. Macdonald's transference to the Senate. creates vacancies in the representation Cumberland and Cape Breton, in the House of Commons, and already the Nova Scotia political press has commenced a warfare. in the Cabinet will be filled by a Nova Scotian sitting in the Commons, who will fax, has been named as an aspirant to office. and it has been reported that Hon. Mr. Daly is a popular man in Halifax, is well connected, and could scarcely vaporings of the Government organs, our Probe defeated, by any candidate of the Grit party, much less by an imported politician Mr. Anglin's calibre.

Another report names ex-Governor Archibald, as Tupper's probable successor, and that he will seek election in Cumberland. There is no doubt he is the ablest man the Conservatives could choose, but whether he would care to re-enter active political life, is doubtful. Mr. Archibald is at present in England, and the use of his name is of course un-

The Forestry Exhibition, The Telegraph would be wise, not to stir up the facts in connection with the Local Government's blundering in the Forestry Exhibition business. These statements, the FARMER made on the authority of Mr. Jack himself. who, we may add, was thoroughly disgusted with the Government and its plans regarding the Exhibition. The Telegraph and Globe made a great splurge about what big things the Government were to do at Edinburgh, and how generously it had acted in the preparations therefor. It had appointed an Agent General, who had himself industriously interviewed by reporters, and the public were led to believe that the whole surplus population of the old country were to come over to New Brunswick as a result of the Agent General's efforts at the Exhibition and elsewhere. The Government knew at the time, that Mr. Jack had been preparing information for months regarding the Province, at the instance of the New Brunswick Land and Lumber Company, and instead of enlisternment, they selected a very respectable gentleman no doubt, who lived for a few years as an insurance agent in St. John, but gentleman no doubt, who lived for a pretext on which to remove him.
