In connection with the Governor General's visit, there is one point to which we may direct the attention of the people, and it is this. Five years ago, when the Marquis of Lorne and the Princess came to New Brunswick, the Local Government of that day felt it their duty to receive the distinguished visitors in a manner befitting their rank. In doing this, a considerable expense was incurred, and the subject formed the basis of a prolonged attack by Mr. Blair, the then leader of the Opposition in the Assembly. Mr. Blair then posed in the light of a Reformer a guardian of the Provincial Treasury, and it was only fair to expect that the policy he advocated at that time would be carried out when he himself got into power. The communication of Lord Lansdowne, to Governor Wilmot, published in another column, however, exhibits Mr. Blair as guilty of the same and that besides open bribery, the voters'
