

An Exhibition of Cowardice.

After all the arrangements had been made for the removal of the Stock Farm to York...

Has there ever been a greater exhibition of political cowardice than this? It may be said that the sudden closing of the river is the cause of the postponement of the removal...

We are told that Mr. Blair screens himself behind the alleged fact that the Murrays have refused to sign the lease of their property...

Mr. Blair's cowardice on this occasion will not be forgotten by the people of York. How marked a contrast there is between his course on the Stock Farm question and that of Mr. Fraser...

This is Mr. Blair's explanation in full, as published by his organ last night: "An unexpected difficulty has arisen in connection with the Stock Farm through the refusal of one of the parties to sign the lease of the Murray Farm..."

Bah! What a sickly excuse. Mr. Blair, you could bring the stock to Fredericton by train, no matter about the weather...

There is just one other paragraph that appears in Mr. Blair's organ which we reproduce for future reference, and in doing so, we apologize to our readers for quoting so extensively from such a source. It is this: "We do not imagine that the hostile criticisms of the Telegraph will lead him (Blair) to ask his colleagues to re-consider the matter in order that he may vote against his own constituents; neither do we imagine that the other members of the Government are prepared because it suits the Telegraph to make a strong plea for Kings, to re-consider their decision as to the Murray Farm, made after the advice of the Board of Agriculture had been received..."

Which meant at the time, that Mr. Blair would not back down, which read now with the knowledge that Mr. Blair has backed down, is excellent evidence of Mr. Blair's political dishonesty and cowardice.

Ruffian Journalism.

The contemptible attack of Mr. Blair's Subsidized Organ, on the memory of the late Dr. Elder, which we reproduce elsewhere, is a good example of the dirty work his hiring press is doing for him. We were prepared for almost anything from the Attorney General, but scarcely expected he would set his press up to defame Dr. Elder...

He hath Spoken.

At last, Hon. James Mitchell has been heard discussing a public question. At the meeting of the St. Croix Agricultural Society the other day, Mr. Mitchell said that the expenditure of the \$16,000 annually granted for the purpose of holding the parish fairs throughout the Province, was hardly justifiable in the present condition of affairs...

Mr. William Crockett, besides making every effort to complete the destruction of the school system, is adding new burdens to the people, by sweeping changes in the text books to be used in the public schools. Within one month he has prescribed three new text books—one on Geometry, one on Geography, and one on Canadian History.

In the Presidential election, Cleveland carried the solid South, and of the North-east States, New York, Connecticut, Indiana and New Jersey. The most reliable figuring gives him two hundred and nineteen votes of the electoral college against Blair's one hundred and eighty two.

The extracts from the Telegraph and Mr. Blair's Fredericton organ, which we place side by side elsewhere, are rather interesting reading. This little family quarrel has not been without amusement to the public, who may, perhaps, recognize in it, an illustration of the old adage, that "when rogues fall out, honest men get their due."

This is the first occasion on which York has lowered its colors before St. John. It was Mr. Blair that did it.

Mr. Blair's Gerrymandering Bill.

Mr. William Crockett, the temporary Superintendent of Schools, has promulgated through the Royal Gazette, Mr. Blair's measure for gerrymandering the Electoral Districts of New Brunswick as follows:—

The Board of Education has been pleased to make the following Order:—

Ordered, That by virtue of the power vested in the Board of Education under the provisions of the Act of the General Assembly, 47th Victoria, Chapter 12, intitled: "An Act in amendment of the Law relating to Schools," the number of Inspectors of Schools in the Province be hereby decreased to six, and the Inspectors of Schools be divided into six equal Districts, each District to consist of six Inspectors of Schools, and shall comprise and include the Districts as hereinafter numbered and described:—

DISTRICT NO. 1.—The Counties of Restigouche, Gloucester, Northumberland, and the Parishes of Stanley and Saint Mary's, in the County of York.

DISTRICT NO. 2.—The County of Kent, the Parishes of St. John's, Dorchester, and the French Schools in the Parish of Boisfort, in the County of Westmorland, the Counties of Victoria and Madawaska, and the Parishes of Aberdeen, Kent and Wicklow, in the County of Clinton.

DISTRICT NO. 3.—The County of Westmorland, (except the Parishes of Shediac, Dorchester, and the French Schools in the Parish of Boisfort, and the Schools in the incorporated Town of Moncton), the County of Albert, and the Parishes of Havelock, Campbell, Westford, Studholm, Sussex, Hammond, Norton and Upham, in the County of King's.

DISTRICT NO. 4.—The Parishes of Springfield, Kees, Kingston, Hampton, Halloway, Greenwich, and Westford, in the County of King's, the County of Queen's, and the Parish of Clarendon, Charlotte County, the County of Sunbury, and the Parishes of Douglas, Bright, and Montserrat, and Southampton, in the County of York.

DISTRICT NO. 5.—Saint John City and County, and the County of Charlotte, (except the Parish of Clarendon, and the Schools in the incorporated Town of Charlotte).

DISTRICT NO. 6.—ON GRAMMAR SCHOOLS, INSPECTORATE.—The Grammar Schools of the Province, the Schools in the incorporated Towns of the Province, the Schools in the Parishes of New Brunswick, Kingsclear, Manners-Sutton, Prince William, Dumfries, Canterbury, and North Lake, in the County of York; and the County of Gascons, except the Parishes of Aberdeen, Kent and Wicklow, and the other Districts.

The divisions are most remarkable. Let the reader take a look through the Order of the Board of Education, which we print above, and observe how the Districts have been mixed up. York will be seen to have no less than three Inspectors. Mr. Merceour will require the "wings of the morning," or some other equally rapid means of locomotion, to be able to cover Restigouche, Gloucester, Northumberland, and part of York, and the same observation may be applied to the other Districts.

It is absurd to expect men to do their work well in such extended fields, and inspection, done in such a way as we have said before, will be a farce, and its expenses a waste of money. No wonder Mr. Cox resigned his Inspectorship. As a conscientious man, he could not continue in a position where he knew his work would be valueless.

Mr. Blair by reducing the teacher's salaries ten per cent., has driven some of the best men out of the profession, and by his Inspectorial regulations he has got rid of two of the best men on the staff. We wonder what part of the educational system he and his rife Supt will next attack. Has Mr. Blair taken this course as a means of shattering the Five School System of the country to which he has been opposed? Are these changes the entering wedge for the destruction of the whole system? People are asking such questions as these, when they observe how much Mr. Blair has done inside of two years to wreck the schools of this Province. We fancy the same storm of public opinion that met Mr. Attorney General Blair, will relegate his satellite, the Superintendent, to a place where he can do less damage than in his present position.

The "Telegraph's" Compliments to Blair and McLellan, and Blair's Compliments to the "Telegraph."

Look on this Picture. And then on This.

(From the Telegraph.) We venture a few more words as to the position of affairs and the attitude of the three principal actors in the little scheme for the aggrandisement of York. By the three principal actors, we mean the Attorney General, the Provincial Secretary and the Secretary for Agriculture. What is the record of the Attorney General in this matter?

He was opposed to having a Stock Farm at all at the outset. It is true he is reported as saying in the last session of the Assembly that such was not the case. We beg to refresh his memory by some citations from a speech delivered by him in the Assembly on 16th March, 1882, the report of which appears in the Daily Telegraph of the 18th of the same month. Mr. Blair then said:—

"But can be done by private enterprise and effect more economically than by the Government holding this in view, the stock farm cannot command itself altogether to the farmers, and I am willing to discuss the question of a large amount of money. If it does not satisfy the people in all parts of the Province, we may assume that it is not on its merits only, but that it commands itself to those who approve of it. I entirely deny that there is existing any such feeling in connexion with the farm, as the Provincial Secretary has stated. The Chief Commissioner undertook to argue a large amount of money.
