A Formidable Indictment. To the Editor of the Maritime Farmer SIR,—The Gleaner, which we may fairly assume is the mouthpiece of the Chief Superintendent on education matters, has spoken. The only thing that one can say of the utterance of the oracle is that it is incoherent, il-

logical, personal and stupid. Mr. Parkin who conscientiously opposed Dr. Rand, when it was very unpopular to do so, and when the present Chief Superiutendent was Dr. Rand's most obedient follower and outspoken defender in a result in the state of the s fender in every regulation that he made, must now be squared. I was not before aware, that Mr. Pa. An, than whom a mere honest, capable teacher is not to be found to-day in the Province of New Brunswick, has had the thumb-screws applied, or threatened. A little time brings truth to light in these days, and so Mr. Parkin can bide his time. The Gleanur says he has been "squelched," and though no great authority, yet it may know some of the methods. Is such personality justifiable? is it even decent? "The Rebel Teachers!" Rebels against whom, or what? We had thought ourselves good the City Hall, Friday evening loval subjects of Queen Victoria; but it seems we have a King-let that pass-it is surely stupid enough to call us rebels. Can it be that the Chief Superintendent has wielded the birch so long, that he can only realize in his office the lordship of a larger school. But, says the Gleuner, the teachers have made out no case, or, for I have no copy at hand, have made no formal state- crops. ment of grievances. I will now state as coners, as well as the general public, have to the recent changes in the School Law and the Regulations. For the sake of convenience, I will address the Chief Superintendent directly. 1st. You have taken away 10 per cent. of

to, you say you have increased the pay of capacity. some. Now, sir, nearly ever good teacher in the Province got first rank, and many of the remainder got second, and not many, except for very sufficient reasons, failed to rank at all. Principal Crocket would take 10 per cent. from the deserving, competent teacher, so as to level up the incompetent. A very I. S. C. Band furnished music. Daniel, eh! I know you have not space to permit me to enlarge on this part of our objections, but we lose 10 per cent. all the same, notwithstanding Mr. Crocket says the reduction was a financial necessity, &c., and then again says the Province pays just as absence of several mon the in Europe. They much now as it did before. Just how that had a pleasant trip. relieves the provincial finances may be clear to the Gleaner, or rather the Chief Superintendent, but it is not to the "rebels." 2nd. You have paralyzed, if not destroyed

the greater number of the Grammar Schools, in this Province. Of course when I say you have, I mean the prospects to most minds are that such the tendency of your legislation. It would be needless for me to enlarge on its enormity. These Grammar Schools have been the nurseries of learning in this Province. From the Grammar School centres, have come our professional men, and most prosperous merchants, as well as most scientific farmers. The Goths would have respected these time honored institutions! 3rd. You have so appropriated the superior allowance to Superior Schools that there is little inducement to districts to establish

4th. You have officiously and gratuitously interfered with the Trustees of schools in the matter of holidays. You say we work only five hours a day and have six to eight weeks holidays, and surely that is enough. Well, to many it is enough, for my own self I think it is enough, but for very many it is not enough. It very often happens indeed, more frequently than in any other calling-for under present circumstances it would be folly to say profession-that teachers have to get leave of absence, on account of health and very many break down altogether. In many cases the attendance does not justify keeping school open the last two weeks in August, and many eminent men have given it as their opinion, that it is not well to have young children so much confined in the summer season, and for these, amongst other reasons, the "rebels" think the right of lengthening the holiday term was quite safe in the hands of the Trustees.

5th. We object to your alteration in the school term, not that per se the change would be injurious, but we have reason to fear that many districts will have teachers for the six months beginning on the 2nd January and ending 30th June, and have no school during the following term, thus taking away entirely the holiday privilege, and seriously interfer-ing otherwise with educational progress. 6th. You have lowered the educational standard by taking students with five months training instead of ten months as before.

You want cheap teachers, and you are ready to have them regardless of qualifications. You want to go back to the three R's too. 7th. You have crippled, if not completely destroyed the usefulness of the Inspectoral staff. You have so laid off Inspectoral Districts so that Inspectors can do little more than

look in and say good morning to the teacher, if, indeed, he be able to overtake that much of his work. I have talked to several Inspectors and they have all concluded that it will be quite impossible to overtake the Maplewood, York County. Mr. J. Johston, Not much "sentiment" or "bosh" either John McKeen, Postmaster; and at Hoyt Statendency is retrogade; it is after some four- out-door concerts next week, namely on

with the heartfelt hope that these changes will not come into operation. The whole teen years of unparalleled educational pro-gress, to stultify ourselves, as the Chief Superintendent has done already, and destroy what has taken so many years to build up. I thank the FARMER and the Capital and the Reporter, the St. John Sun and the Maple and Miss Mckeen, daughter of Mr. Wm. Leaf. There may be other papers, but if McKeen, proprietor of the Exchange Hotel. the thanks of a poor unfortunate "rebel" Woodstock, were married at the bride's does not reach them, it will not affect their home vesterday morning, and left immediateusefulness very materially. Living in the ly for the west on their bridal tour. I see and read enough to know, that these papers do affect and reflect public opinion, and it is my earnest hope that they may long continue to do so.

P. S.-I do not wish to be understood as writing on this subject as an opponent of the Government. I have taken no interest in Cup, won at the Ottawa Rifle matches for Blood Bitters as the best system renovating politics, generally or particularly. I don't two successive years by a New Brunswick blood purifying tonic known. Its work know which is best, Government or Opposi- team, the McDougall Cup, carried off by bears out their best recommend. tion, but I do feel that the Government have Sergt. O'Shaughnessy, I. S. C., and the made bad work in the Education Bill changes, Prince of Wales Cup, won by Lieut. Smith and I am sorry for it.

Fredericton Brass Band Sports.

REPORTS OF GOVERNMENT CHEMISTS As to Purity and Wholesomeness of the Royal Baking Powder. "I have tested a package of Royal Baking Powder, which I purchased in the open market, and find it composed of pure and wholesome ingredients. It is a cream of tartar powder of a high degree of merit, and does not contain either alum or phosphates, or other injurious substances. E. G. LOVE, Ph.D." "It is a scientific fact that the Royal Baking Powder is absolutely pure. "H. A. Mott, Ph.D."

"I have examined a package of Royal Baking Powder, purchased by myself in the market. I find it entirely free from alum, terra alba, or any other injurious substance. HENRY MORTON, Ph.D., President of Stevens Institute of Technology." "I have analyzed a package of Royal Baking Powder. The materials of which it is composed are pure and wholesome. S. Dana Hayes, State Assayer, Mass."

The Royal Baking Powder received the highest award over all competitors at the Vienna World's Exposition, 1873; at the Centennial, Philadelphia, 1878; at the American Institute, New York, and at State Fairs throughout the country.

No other article of human food has ever received such high, emphatic, and universal endorsement from eminent chemists, physicians, scientists, and Boards of Health all over the world. Note-The above Diagram illustrates the comparative worth of various Baking Powders, as shown by Chemical Analysis and experiments made by Prof. Schedler. A pound can of each powder was taken, the total leavening power or volume in each can calculated, the result being as indicated. This practical test for worth by Prof. Schedler only proves what every observant consumer of the Royal Baking Powder knows by practical experience, that, while it costs a few cents per pound more than ordinary kinds, it is far more economical, and, besides, affords the advantage of better work. A single trial of the Royal Baking Powder will convince any

\* While the diagram shows some of the alum powders to be of a higher degree of strength than other powders ranked below them, it is not to be taken as indicating that they have any value. All alum powders, no matter how high their strength, are to be avoided as dangerous.

CONFEDERATION LIFE ASSOCIATION

Head Office, Toronto.

fair minded person of these facts.

PRESIDENT-SIR W P. HOWLAND, C. B., K. C. M G. VICE PRESIDENTS-HON, WM. MCMASTER, WM. ELLIOTT, ESQ. MANAGING DIRECTOR-J. K. MACDONALD. This Association merits the confidence that the public is resposing in it, from the following Dominion. Its progress has been unexampled in the history of Insurance in Canada.

Its Policies are indisputable after three years, and non-forteitable after two years. The Cash Profit results paid to policy-holders have not been equalled by any Company in Canada.

The following are examples of actual Reduction of Premiums by application of profits :-

A HOME COMPANY.

Robert Taylor, Halifax, insured for \$10,000 in 1872, premuim \$317,70; in 1882, \$160.10. John Willis, Halifax, insured for \$1,000 in 1871, premuim 31.77; in 1882, \$14.20. John S. McLean, Halifax, insured for \$1,000 in 1872, premuim \$137.76; in 1882, \$70.06. Mayor Jones, St. John, insured for \$5,000 in 1871, premium \$172.20; in 1882, \$77.20. The fullest information will be given on application.

These Shifting Tops have no rival, as a glance at the cut will show for itself; it is so simple It requires only one person to take it off or put it on, and when off no one would think a Top had been on, as no unsightly ends are sticking out. When the Top is on it is as firm as a rock. It eas be put on any carriage in use. Persons ordering Buggles or Canopy Top Carriages should see that they have this Rail, as it will be greatly to their interest.

These Tops were awarded a Diploma at the Provincial Exhibition in October, 1880 Particular attention given to orders. Repairing done in the best manner, and at the shortest notice
