### Dr. Barker Elected.

The election in the city of St. Joh yesterday, to fill the vacancy in th House of Commons, caused by Si Leonard Tilley's resignation, resulted as we anticipated, in the return of Dr. Barker. His majority, however, is not nearly so large as Mr. Everett's was in the election a few weeks ago. Mr. Everett led Mr. McLeod in the city, four hundred, while Dr. Barker's majority over Judge Skinner, is only one hundred and twelve. The difference is not due to any revulsion of feeling towards the Government, but is because of personal matters. Dr. Barker only lately has been at all indentified with politics, and is comparatively unknown old politician, well acquainted with the electors, and a most persistent and suc cessful canvasser. Besides this, having ing up to a few weeks ago, been an active Conservative, he had many friends. who, from personal reasons, followed him temporarily into the Grit camp.

### An Independent View.

The Montreal Star, an independent journal published in the very centre of the Riel agitation, thus delivers itself on the course the Grit party of Quebec have taken to make political capital out of Riel's execution, and its probable effect on the other Provinces :-

French Canadians of anger or sorrow at the fate of Riel—feelings so carefully fostered by interested parties—are vieing with each other in grasping at the opportunity it gives them to curry favor with the people. But in doing so, they are misleading the people of this province into a position of humiliation antagonism to the people of the other provinces, and while they are acquiring brief notoriety and popularity at home, they are cementing the rest of the Dominion against Quebec. Quebec can never maintain its influence in the Dominion through the line of action which is being defined at present by law students in

The Ontario Grit leaders are no doubt coquetting with the Frenchmen, with the hope that a coalition of the two parties would prove the destruction of the Government, but if national lines are to be drawn, Sir John will gain more than he will lose by the defection of the Frenchmen. ## Father Dowd's Appeal to Irish

At St. Patrick's Roman Catholic church Montreal, last Sunday morning, Father Dowd delivered an eloquent and impressive sermon, warning Irish Catholics to have nothing to do with the agitation and commending strongly the action of the Government in carrying out the sentence of Riel. He said these demonstrations and bickerings, if kept up, would lead to civil war, as if the French were to form a national party as they want to, the Protestant Englishspeaking people of the rest of the Dominion would combine against them and swamp the party, The Irish Catholie interest was with the English people, and he urged them not to be led away by deceitful politicians and unscrupulous journalists, who care not if the country be ruined so long as they fill their pockets. Father Dowd said he had enjoyed the privilege of a personal interview with Bishop Grandin, Bishop who could concentrate their forces at writes; "I find Dr. Thomas' Eclectric Oil of which this generation has had, happily, no of the North West Territories, the scene that point and use it as a base of opera- the best medicine I have ever used in my experience.
