In a speech at Dublin last week Thomas Sexton, M. P., said the day may come when England will be willing to follow the example of Germany, and refer to the arbitration of the people the dispute between herself and Ireland. Mrs. Judith Ellen Foster. This gifted lady who is to speak in the City Hall on Friday, Saturday and Sunday evenings, is the wife of the Hon. Amos A. Foster of Iowa, a well known lawyer and prominent politician. She is the daughter of Jonathan Horton, a typical son of New England, a preacher of the gospel and a strong temperance worker, and the abolitionist.

In his daughter still breathes and speaks his lofty and indomitable spirit. She was educated in the public schools of Boston, the Charlestown Female Seminary, and the Genesee Wesleyan Seminary at Lima, New York. She read law first for the entertainment of her husband, and afterward, by his suggestion, she pursued a systematic course of legal study with no thought, however, of admission to the bar. She never had an ambition for public speaking or public life. Although raised in the Methodist Church, she had never, until the time of the crusade, heard a woman preach or lecture, but when the trumpet sounded she, in common with her sisters, responded to the call and lifted up her voice in protest against the iniquity of the liquor traffic. At the urgent request of her husband, who said "If you can talk before an audience, you can talk before a court or jury," she was examined and admitted to the bar.

Whether following the intricacies of debate in a convention, conducting a prayer meeting and during the sessions, leading the music of an outdoor meeting, answering Dr. Crosby at Tremont Temple, Boston, playing with her boys at home, reading Plato in the cars, or speaking in the great Tabernacle at Chicago, Mrs. Foster is always witty, wise and kind, and thorough mistress of the situation. Best of all she loves the Lord Jesus Christ and above her chief joy, desires and calls to build up His Kingdom on the earth.
