The University Difficulty. Much has been written in the newspapers lately, regarding the "rustication" of Mr. Smith from the University and much unjust criticism of the Presi dent, the Faculty and the Senate has been indulged because of their action in the matter. We consider those who have championed the cause of Mr. Smith, have gone very far out of their way to impugn the action of the University authorities. From the evidence of Mr Smith himself, and those who were called to support him, it is evident that a ments, by singing disrespectful songs and the Scott Act, they will destroy it. throwing something heavy against his On the other hand, Senator Scott, who

Mr. Curran, living as he does in Montreal, is in a position to guage pretty accurately the effect of the Riel agitation on the Government majority, and from his statement, it would appear that not over a dozen, at most, of the French Conservative members have with drawn their allegiance from the Government.

The Grit party in the Upper Provinces evidently believe a dissolution is at hand, and are preparing for the anticipated electoral struggle. On Mr. Blake's arrival from England the other day, he was met at New York by two leading members of the Grit party, and the situation was discussed, it being finally agreed to have a caucus of the Ontario and Quebec Grit leaders in Toronto early in January.
