Maritime Farmer. FREDERICTON, N. B., October 14, 1885.

Are They Alarmed?

The whining, helpless tone of the St John Grit press during the past week, is in strong contrast to their bravado in the early part of the election campaign in that constituency. This, we take it is an excellent evidence that they consider Mr. McLeod's candidature a lost cause. McLeod's defeat would be a terrible set back to McLellan, Ritchie, Ellis & Co., and the local machine which they support and which is exercising to the tent, all its patronage against Everett. The election occurs on Tuesday next.

A Misfortune.

The destruction of Mr. Morrison's mills, is a misfortune to the community, and for that gentleman, a great deal of sympathy is expressed. Over a hundred men are thrown out of employment, and many of these number had port. Mr. Morrison has been singularly unfortunate in his mill enterprises. Three times has he been burned out, and his, that are the vital elements of prosperity in a community.

The St. John Nomination.

We judge from the reports in the St. John papers this morning, that the nomination proceedings in that constituency yesterday, were exceedingly lively. Mr. Everitt, the Conservative mational highway, which in a few weeks time would join with an iron band the last session at Fredericton brought in a candidate, evidently made a very calm, Atlantic and the Pacific. He believed Franchise Bill, from which I will read you able exposition of the Government that it was in the North West that the just one little extract, "The Governor in policy, while Mr. McLeod was personal hopes of Canada as a young nation were and his cabinet—"shall appoint for each and abusive. Prof, Foster was loudly called for, when the candidates had finished, but McLeod and Weldon protested; they couldn't face him, and the pro- Government had shown a disposition to gentlemen, and you can all come up and read ceedings ended. "Who shall be a barrister-in-law practising in the province, and who ing Conservative meeting was addressed entitled them to expect that our people shall hold office during pleasure, but who by Mr. Everett, Hon. A. W. McLellan, Minister of Marine and Fisheries, and appreciation of what was being done for peals and complaints in the manner prescribed Mr. Foster. We hope for good news us. Mr. Everett, going in as a supporter by this act; and every such revising officer from St. John next Tuesday night,

of his death.

Mr. Adams on the Stump.

Hon. M. Adams, M. P. P., for Northumberland, is rendering Mr. Everett yeoman service in the St. John election. Mr. Adams is a most successful stump speaker, and is making it warm for his St. John colleagues in the Legislature. He met Solicitor General Ritchie at Musquash Saturday night, and demolished the little fellow, just as he often does in the Legislature. One point in Mr. Adams' speech, touching as it did a local issue, we reproduce :- "His Grit friends," said Mr. Adams, "profess to love the poor man, but their professions are loudest at election times. But while the Grits professed to love the poor man, the Government of which his friend Mr. Ritchie was a member, had increased the stumpage on lumber from 80 cents a thousand to \$1.25, which bore heavily on the lumbering interests, in which all

should have liked to have seen the party ties of which no opposition can deprive quite a common thing for the miners to drop lines in local politics kept separate from him." those dividing the great parties in DomiOur contemporary is so much annoyorder and never allowed the plate to pass unto have its effect in enhancing prices of these nion politics, it must be evident that in ed because Dr. Pugsley espouses the Connoticed. In Sun and the day of judgement, unless it is settled in accordance with justice, and with the desires and rights of Irishmen.

In Sun and I last week, the largest steer in the world, weighing 4.250 pounds, and the smallest cow in the world, weighing 350 pounds and thirty-four inches high

The body of a drunkard was recently brought into Guy's hospital, London. His body was very much bloated and upon being punctured and a lighted match applied, the gas which escaped burned with the ordinary flame of carburetted hydrogen. As many as a dozen of these flames were burning at the

One of the marvels of the present age is the extent to which the products of the earth, bitherto considered useless, are adapted to the wants of man. A few year ago cotton seeds were thrown away as worthless. Now they are worth from \$10 to \$12 a ton. During the first half of the present year \$1,-828,771 worth of cotton seed oil has been exported from the United States to Europe.
