## AYER'S Cherry Pectoral.

No other complaints are so insidious in their attack as those affecting the throat and lungs: none so trifled with by the majority of sufferers. The ordinary cough or cold, resulting perhaps from a trifling or unconscious exposure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should taken in all cases without delay.

A Terrible Cough Cured. "In 1857 I took a severe cold, which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried AYER'S CHERRY PECTORAL, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the PECTORAL a permanent cure was effected. I am now 62 years old, hale and hearty, and am satisfied your CHERRY PECTORAL saved me. CHERRY PECTORAL saved me.
HORACE FAIRBROTHER."
Rockingham, Vt., July 15, 1882.

Croup. - A Mother's Tribute. "While in the country last winter my little boy, three years old, was taken ill with croup it seemed as if he would die from strangu-lation. One of the family suggested the use of AVER'S CHERRY PECTORAL, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half an hour the little patient was breathing easily. The doctor said that the CHERRY PECTORAL had saved my darling's life. Can you wonder at our gratitude? Sincerely yours MRS, EMMA GEBNEY."
159 West 128th St., New York, May 16, 1882. "I have used AVER'S CHERRY PECTORAL in my family for several years, and do not hesitate to pronounce it the most effectual remedy for coughs and colds we have ever tried.

A. J. CRANE."

Lake Crystal, Minn., March 13, 1882.

"I suffered for eight years from Bronchitis, cess, I was cured by the use of AYER'S CHER-RY PECTORAL, JOSEPH WALDEN." Byhalia, Miss., April 5, 1882. "I cannot say enough in praise of AYER'S CHERRY PECTORAL, believing as I do that but for its use I should long since have died from lung troubles. F. BRAGDON." Palestine, Texas, April 22, 1882. No case of an affection of the throat or lungs exists which cannot be greatly relieved by the use of AYER'S CHERRY PECTORAL, and it will always cure when the disease is not already beyond the control of medicine.

PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists.

## Agriculture.

Provincial Farmers' Association.

The ninth annual session of the Provincial Farmers' Association wil be held at Sussex, King's County commencing on Tuesday, the 27th inst at 10 o'clock, A. M. The subjects for liscussion are: 1st.-Is it profitable to grow wheat in New Brunswick. and if so, under what circumstances ? 2nd.-To what extent should sheep husbandry form a part of New Brunswick farming? 3rd.-Which is the most profitable to fatten, beef or pork and what age should they be put upon the market. Papers on the above subjects would be very acceptable. All persons interested in agriculture are cordially invited to attend. Agricultural Societies, Granges, and other kindred institutions, may send delegates on payment of the usual fees. Private members admitted on pay ment of one dollar each. All persons intending to be present will please notify the president at as early a date as possible. All persons going by Intercolonial, New Brunswick and Albert Railways, who pay a first-class fare, will be returned free on present ation of a certificate from the secre
